Warns Veterans Against Side Payments On Homes

Veterans seeking to buy a home with a government-guaranteed loan were cautioned by veterans administration officials this week against making a "side payment" to the owner in excess of the appraised value in order to purchase the property.

"A veteran who is desperately in need of a home is willing frequently to pay in cash to the seller the difference between the appraised value and the asking price," said Charles A. Ball, loan guarantee officer of the North Carolina regional office, veterans administration. "This practice defeats the intent of the law, and if discovered by the VA will result in nullification of the guarantee."

Mr. Ball explained that the Servicemen's Readjustment act will not permit guarantee of a loan for the purchase of a home when the sale price is higher than the appraised value.

The loan guarantee officer also warned veterans who have obtained a GI loan for construction not to enter into a "cost-plus" contract after approval of the loan.

"In applying for a construction loan," he said, "a firm bid" should be obtained—that is, a bid for a definite amount. A second bid made on a cost-plus basis, with the intent of having the veteran pay a higher price due to any raise in material costs, should not be considered."

SERVING YOU THROUGH SCIENCE

it's a Rayon tire
it's a Stronger tire
it's a Safer tire
and it's a

U.S. ROYAL!

For more than 30 years, American motorists have looked to U. S. Royals for the newest, most important developments in tire design.

Today, there is a great new U. S. Royal — built with super-strength rayon cord. It is a worthy successor to the famous U. S. Royals of the past—a dramatically better, safer, stronger tire. It's backed by long years of experience with rayon cord construction — for "U. S." mar-

keted its first rayon-built tire more than 9 years ago!

All through the war, "U. S." built airplane and truck tires with rayon cord. And now, the great new rayon-built U. S. Royal DeLuxe is available in many passenger car sizes.*

See your U. S. Tire Dealer now — find out how soon you can be riding on rayon-built U. S. Royals!

*Present Government regulations restrict all rayon construction to 6.50 and larger.
