Sugar Stamp No. 49 Extended Until Sept. 30
Spare Stamp No. 49, good for five pounds of sugar and scheduled to expire September 1, continues good throughout September because of the shortage of sugar in some areas due to mal-distribution, OPA District Director Theodore S. Johnson explained.
At the same time, he announced that Spare Stamp No. 51 became valid last Sunday, also for five pounds, in line with the regular ration pattern followed for the past several months. This stamp continues good for the balance of this year, he said, adding that uncertainty about the extent of the coming Cuban crop makes it impossible to increase the present sugar ration.
Johnson also announced that OPA District offices now have authority to close the ration bank accounts of wholesalers and retailers who overdraw their sugar accounts and thus temporarily obtain more than their fair share of this scarce commodity. This closing of a seller's ration bank account will not prevent OPA from taking necessary enforcement action against any violator of ration regulations, Johnson said. The following stamps are good until these dates: Spare stamp No. 49 expires September 30; spare stamp No. 51 expires December 30 and spare No. 9 and 10 expire October 31.
Almost two-thirds of the farms in the country are now in soil conservation districts.

5,222 Veterans' Claims Checked In North Carolina During Month Of July

Questionable claims of 5,222 World War II veterans filed in North Carolina in July for servicemen's readjustment allowances under the G. I. Bill of Rights were investigated and determinations were made, it is revealed by Henry E. Kendall, chairman of the State Unemployment Compensation Commission.
The 17 UCC claims deputies in the State making investigations and determinations in these cases allowed about one-half of the number, 2,657, to draw these allowances without penalties. In 954 cases penalties were imposed against the veterans, while in 1,611 cases claims were disallowed entirely.
Chairman Kendall points out that only 310 appeals were taken by veterans in the 2,565 cases in which they were penalized or disallowed claims entirely, or about 12 per cent of the total, indicating the overwhelming number of veterans who were satisfied at the fairness of the decisions of the UCC claims deputies.
Investigations and determinations were made in July in 1,870 cases of non-veterans, unemployed workers seeking the regular unemployment benefits. Benefits were allowed without penalties in 884 cases, less than half of the total, penalties were imposed in 374 cases, while claims were disallowed entirely in cases of 611 applicants.
In cases of 985 non-veterans against whom decisions were rendered by the claims deputies in July, only 135, or 7.2 per cent of the total filed notices of appeals.
