Mr. Davidson said also that, in spite of the stringent requirements in Scout work, most of the members of the troop qualified for the trip and that only a few who qualified did not go.

The Scouts left Highlands early Friday morning, accompanied by Scoutmaster Davidson, Assistant Scoutmaster Bill Swain, Tudor N. Hall, and Louis A. Edwards, committeemen, and Tom Harbison, who drove the truck.

CONSTIPATION Risky in BAD COLDS

Retained undigested food becomes putrefactive, causes toxins, which overload the liver and other vital organs of the body, lessening your resistance to colds and other winter ailments and interfering with their treatment. Why take this chance when you can take Calotabs? Calotabs thoroughly yet pleasantly act on every foot of your intestines, sweeping out toxin-laden putrefactive foods and virus-laden mucus, enabling you to more effectively avoid or fight a cold. Nothing acts like good old Calotabs. Use as directed. 10c and 25c at all druggists.

How to Stop Worrying

I guess folks in our town do about as much worrying as in yours—over housing and prices, and crops, and jobs—and the little domestic problems that are always coming up.

Dad Hoskins, who's lived to the happy age of eighty, has a simple formula for stopping worry. About every problem, he asks himself: Is there anything I can do about it? If there is, he never postpones making a decision, or taking necessary action.

If there isn't anything he can do about it, he sets aside a "worrying

hour" after dinner, and gets his worrying over in one concentrated period. When that's over, he relaxes over a friendly glass of beer with Ma Hoskins—and they talk about pleasant things together, until bedtime.

From where I sit, that's as workable a formula as you could find... right down to the mellow glass of beer that seems to wink away your worries.
