## CRY BABY

When children cry, are upset and irritable, with a coated tongue, they may need a laxative. TRIENA is the children's own laxative—effective, thanks to senna—easy to take because it's flavored with prune juice. TRY TRIENA. Caution: use only as directed. 30c, large size, 50c.

## "no advance in price . . ."

You can't say that about many things any more. Nearly everything has gone up.

And paper is no exception. The paper that this copy of your Franklin Press is printed on costs us today 28 per cent more than it did a year ago.

So most newspapers have raised their subscription rates.

But The Press continues at \$2 a year—that's a little less than four cents a week for an eight or ten-page paper, crammed full of Macon County news and the important business news contained in the advertising of Macon County firms and individuals.

And we're going to keep the subscription price down to \$2 just as long as possible. But to do that, we must collect the full subscription price for every subscription.

So, starting January 1, we are compelled to ask ministers and servicemen, who have been getting the paper for \$1.50, to pay the \$2 rate.
