From where I sit... by Joe Marsh

Andy's "Certificate of Service"

Andy Botkin's mighty proud of the first dollar he made. He's got it framed, and hanging beside his license, in the Garden Tavern.

Of course, there's a big difference between that dollar bill, and what Andy paid for the license giving him the right to earn it. Which prompts Willie Wells to say: "It's a heck of a note to have to pay to start a business."

"That's what I thought at first," says Andy. "But actually that piece of paper's my protection. And yours too! It helps keep out

undesirables, and it means you've got to maintain decent standards—or answer the local law enforcement agencies and face the loss of your license. What's more, the brewers, in co-operation with the tavern keepers themselves, are backing up all it stands for with their program of self-regulation.

From where I sit, Andy's license is more than a permit to do business. It's a certificate of good behavior, and service to the town.

NOTICE

The North Carolina law requires that any person doing electrical house wiring or electrical repairing have a license to do such work.

Mr. N. E. Cannady, State Electrical Engineer and Inspector, has advised that it is the duty of all parts of the electrical industry to uphold and enforce this law.

Any person doing work after January 15, 1947, for which a license is required without first procuring same, will be prosecuted.
