Sunday's Sunshine Made Day Just Like One In Late Spring

Last Sunday, with its gloriously warm sunshine, easily could have competed with any fine day in spring.

Then came Monday, and with it a cold rain.

The contrast, most Highlands residents agree, was typical of this mountain country.

SCHOOL FUTURE DISCUSSED BY HIGHLANDS PTA

Mrs. Valentine Speaks On Developments To Be Sought

"The Promotion of the Welfare of Children and Youth through Home, Church and Community" was the theme discussed at the January meeting of the Highlands Parent-Teacher association, held January 7 at the school. A small, but interested group was present.

Mrs. J. M. Valentine presented her views on possible future progressive activities in the Highlands school which she called "My Dream for the Future of our School." This talk, with its suggestions and appeals, met a responsive chord in the hearts of her listeners, since, according to the publicity committee, the parent-teacher association of Highlands school has "dreamed dreams and seen visions" like those painted by Mrs. Valentine.

The publicity committee announced that all parents who are interested in the school are cordially invited to attend each meeting and to contribute through cooperation to the furtherance and completion, when possible, of these "dreams."

The publicity committee has also asked that parents remember that meetings are held the first Tuesday of each month; the time 3:15, and the place, the school house.

Frank Keener, of Waynesville, spent the week-end in the Vinson settlement at Scaly.

Mr. and Mrs. Charlie W. Miller have announced the birth of an 8½-pound son, Virgil Ingram, January 14.

There's EXTRA SAFETY in the Tire that OUTWEARS PREWAR TIRES

While many postwar products are still in the dream stage, one is not... the new postwar B.F. Goodrich Silvertown that OUTWEARS PREWAR TIRES.

It's been produced... and what is more... in the past twelve months it's been delivered to car owners in greater quantities than any tire in B.F. Goodrich history.

Of course, many car owners have heard about the thousands of extra miles of service from the broader, flatter tread that covers more road area and gives greater protection against skidding. They know about the 35% stronger cord body that gives better resistance to road shocks and bruising. It's no wonder the factory's out-

standing production has been taxed keeping up with this extra demand.

But this is one product you can take out of your dream book... it's here. If you'll be needing new tires soon... check with us today for the tire that's worth much more but costs no more—the B.F. Goodrich Silvertown that OUTWEARS PREWAR TIRES.
