**CONSTIPATION**  
Risky in **BAD COLDS**

Retained undigested food becomes putrefactive, causes toxins, which overload the liver and other vital organs of the body, lessening your resistance to colds and other winter ills and interfering with their treatment. Why take this chance when you can take Calotabs? Calotabs thoroughly yet pleasantly act on every foot of your intestines, sweeping out toxin-laden putrefactive foods and virus-laden mucus, enabling you to more effectively avoid or fight a cold. Nothing acts like good old Calotabs. Use as directed. 10c and 25c at all druggists.

Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

**Willie Goes to School at 23**

Everybody's joshing Willie Wells about going back to school. They remember when Willie would hide out in the woodshed—scared to bring his report card home to Pa.

But under the G. I. Bill of Rights, Willie (who has a wife and baby) is getting a free education at the Agricultural College. And Uncle Sam is giving him a fine report: "Department, excellent; Progress, above average."

That goes for all those undergraduate veterans. Like Willie, they appreciate an education more than

ever now. They're industrious and well-behaved—their favorite beverage is milk, or a temperate glass of beer. For them the "three R's" seem to mean: Responsibility, Resourcefulness, Restraint.

From where I sit, cynical folks who thought veterans wouldn't want to return to school—wouldn't stick to steady habits of work and moderation—have their answer in "undergraduates" like Willie.
