Lists Important Social Security Items To Remember

By D. W. LAMBERT (Social Security Manager)

Are you employed in a mill, factory, office, store, bank, garage, hotel, beauty parlor, or in any capacity in industry or business. If so, your employment is covered by the social security act and you need a social security account number card. Have you applied for and received your card? Have you given your number to your present employers?

You may ask, "What's the meaning of a social security number and why is it so important that it be shown to my employers? The answer is that it is something to identify your insurance account—something to keep your account from getting mixed up with somebody else's of the same name. And it's of the greatest importance to you to keep your account straight because the benefits you or your family will get depend on the wages recorded in your account.

If you are a worker, you are building insurance protection and should tell your family:

1. That you have a social security card, and where it is.
2. That in case of your death, they should write to the social security administration, Asheville, N. C.
3. That they don't have to pay anybody to get these benefits for them; and they should file their claims promptly so that payments will not be lost.

If you tell your family the things suggested, you will have taken the longest step you can to make sure the protection you are building for them will get to them.

North Carolina fish and game law violators in 1946 had to add to their cost-of-living bill the sum of \$29,000 they paid in fines and \$28,000 in court costs.

From where I sit... by Joe Marsh

Broccoli in Dress Clothes

It was Bill Webster's idea—a local Cooperative Packaging Association. The farmers just bring their produce to a converted ice plant, put it on a belt, and it comes out neatly wrapped in cellophane.

Naturally, it looks a whole lot better and more appetizing in the stores. And the farmers share in the expense and management of the Association, which is paying off in better business.

Because how you show your product is as important as its quality. Take a popular beverage like beer.

It's not only important that it's pure and wholesome—but it should be sold in surroundings that are clean, attractive, law-abiding.

That's why the brewers have their Self-Regulation program. When a tavern isn't a credit to the community, the brewers go right to the owner and ask him to clean up his place. From where I sit, that's right in line with the modern trend of better service to consumers.
