

Say: "I saw it advertised in The Press".

**New  
horn  
remo-ver**

Use PÖL, the new Dr. Hess de-horner, on your calves when they're 3 to 10 days old for the following reasons:

1. Quickly destroys the horn buttons.
2. Easily applied by one person.
3. Dries fast, forming a tough water-proof film.
4. Sticks - calf doesn't rub it off.
5. Treated horn buttons

don't "ooze." 6. No danger to calf's face and eyes or cow's flanks or udder when the calf sucks. 7. Not toxic to the treated animal.

Here's a new, more humane de-horner that you sure want to try. Enough PÖL to dehorn 10 calves is \$1. We now have a supply on hand.

**Perry's Drug Store**

**DEDICATED**—Pictured above is the Iotla Methodist church, which was dedicated by Bishop Clare Purcell last Sunday morning. Approximately 400 persons of all denominations attended the service, and many of them remained for the bountiful picnic dinner served at noon in the lunchroom of the nearby school. After receiving the church building and dedicating it, Bishop Purcell called the church officials to the front and presented them with a certificate of dedication. Also participating in the service were Dr. Walter B. West, district superintendent, and the Rev. D. P. Grant, pastor. In the afternoon, a program of music was presented by the choirs and quartets from over the county.

**Wool Pool Is  
To Be Conducted  
Again This Year**

A wool pool will be conducted again this year, it was announced this week.

In order for the wool to sell at the top price, it should be clean, free of tags and burrs, and tied with paper twine. Paper twine may be obtained at the county agent's office.

Dates for the pool will be announced later.

**Warehouse Of  
Cooperative  
Is Now Open**

The Macon County Farmers Cooperative, Inc., recently formed organization, was opened at its warehouse, where it has fertilizers, feeds, and groceries on sale.

The warehouse, formerly used for storing AAA and TVA fertilizers, is situated near the depot.

Pritchard Peek, general manager of the cooperative, is in charge of the store.

Officials emphasized that merchandise of the cooperative may be bought by anyone, regardless of whether he or she is a member. Later, it is hoped to expand the organization's service to include the market of farm commodities.

Persons who have not bought stock in the cooperative but wish to do so are being urged by the organization's officers to act promptly.

Mr. and Mrs. Tommy Gibbs and Floyd E. Gibbs, of Rabun Gap, Ga., were here Sunday.

**Scaly**

J. N. McJunkin, of Fort Lauderdale, Fla., last week opened his summer home here. Mrs. McJunkin and their daughter are expected about June 10, and will remain for the summer.

Mrs. Margie Chastain has been spending several days with her parents, the Rev. and Mrs. Homer Pope, at Whittier.

Mr. and Mrs. Fred Carpenter, of Pine Mountain, Ga., spent the week-end here visiting relatives.

Mr. and Mrs. Jeff Vinson, are spending a few days at Highlands. They expect to return to their home here about June 1.

**MARKETING  
with Marjorie**

Are you planning to pick up and picnic this week end? Then I know you're hoping, as I am, for warm, sunny weather. But if it should turn out to be chilly or rainy, don't let that interfere with your plans. Go ahead and have your picnic anyhow . . . at home. That way your family won't feel let down, and you won't have to rustle up a regular meal at the last minute.

**THIRST AID**

It's no picnic being thirsty on a picnic, so be sure to take plenty of refreshing soft drinks on your outing! You'll find a big variety of "whistle wetters" at your A&P . . . each as enjoyable as the other, and all thrifty priced. Make A&P your thirst aid headquarters!

**QUICK AND SLICK**

If you go in for campfire cookery, you'll get yards of enjoyment from ENCORE Prepared SPAGHETTI. It's mighty good cooked at home on the range, too, so get a few cans at the A&P. Made with a tasty sauce of tomatoes, spices and cheese, all you have to do is heat it. And if you want an extra hearty dish for 8 hearty eaters, combine 2 cans of this swell spaghetti with 2 cans of red beans; mix well in a skillet; add 2 tps. of chili powder, and heat thoroughly. Add green pepper and onion rings if you like 'em. Grand indoors or out!

**SWANK FOR SALADS**

For the best-dressed cole slaw or vegetable salad that ever went a-picnicking, try this tangy dressing made with WHITE HOUSE MILK, the creamy-rich evaporated milk sold at the A&P. Just blend 1/2 tsp. prepared mustard, 1/2 tsp. salt, 2 tps. sugar, a dash of cayenne and 1 cup undiluted WHITE HOUSE EVAPORATED MILK. Add 1 tsp. vinegar gradually, stirring till thick. Enough for 8 servings of salad.

**KING-SIZE SANDWICHES**

Where there's a grill, there's a way . . . to enjoy MARVEL HAMBURGER ROLLS in their special role of partners for sizzling hamburgers. But even if your picnic equipment doesn't include a grill, these delicious, freshly baked rolls from the A&P can have their innings on your outings. They're perfect for big he-man sandwiches of all kinds because they hold so much filling.

The termination date of the program will be December 31, principal wartime price-support 1948.

**FORD TRUCKS  
LAST LONGER!**

**"And Here Are Some Reasons Why!"**

**"YOUR PICK OF POWER FOR YOUR JOB!"**

"Whether you take the V-8 or the big, new Ford SIX, whichever fits your job best, you get the same tough Ford endurance! Flightlight 4-ring pistons and full pressure oiling save oil, keep down engine wear!"

**"FORD CLUTCH—famed for 'more grip—less slip!'"**

"Clutch lining lasts longer when there's less slipping. These Ford Truck clutches build up their grip the faster the engine turns. Mister, they'll take all the torque you can feed 'em, and come back for more!"

**"ROLLER-ACTION STEERING"**

"It's not just roller and needle bearings that make Ford steering easy—though there are four of them in a Ford Truck steering gear. But besides all that, the husky worm-gear works against a free-turning roller instead of an integral sliding sector, and that saves plenty of muscle!"

**"LOAD-FREE AXLE SHAFTS!"**

"Even in Ford half-ton jobs, the weight-load is all taken off the axle shafts, by the 3/4-floating design . . . and all other Ford models have full-floating axles. These rugged, load-free axles are among the many long-life features Ford gives you."
