The Empty Stocking

THIS Christmas we planned to fill the South's stocking with a \$10 million gift of year-'round travel pleasure . . . those 101 luxurious new streamlined passenger train cars we ordered 'way back in August, 1946.

Alas! it can't be. Santa got caught in that famous post-war bottleneck.

We share your disappointment, because we can hardly wait to give our trains that "new look" with all those ultra-modern, lightweight coaches, all-room sleeping cars, diners, and observation, lounge and club cars. Month after month we've impatiently awaited their delivery. But surely, they'll be in service long before next Christmas!

In the meantime, we've been improving our schedules and connections, modernizing our present passenger cars, and adding Diesel power galore . . . doing everything possible to add to your safety, comfort and convenience when you travel on the Southern.

And as quickly as possible we'll fill the South's stocking . . . to the top . . . with those new passenger cars we ordered so long ago. So won't you please be patient?
