

CARD OF THANKS

To our many friends: We wish to thank our many good friends for the favors and kind consideration shown us during the illness, and at the time of the death of our beloved daughter and sister. Also Dr. Edgar Angel and his excellent help for the service they performed and the untiring efforts of the hospital staff in general in trying to conquer the disease that took our darling away. The kind words spoken by Dr. Edgar Angel to Mother Beck, I am sure she'll never forget. The comfort she realized from them. Also the nicely arranged funeral directed by the Bryant Funeral

Home under the most extreme conditions of weather. Now we ask that you all accept our prayers and may God watch over you all, and let us meet again where there'll be even greater friendship than we can ever know here.

Respectfully,
RALPH ELKINS and the
BECK FAMILY.

**Box Supper, Music
Planned Friday At
Cowee As Benefit**

A box supper will be held at the Cowee school tomorrow (Friday) night at 7:30 o'clock as a benefit for the infantile

McKelvey Article

**Appears In Nationally
Read Periodical**

An article by Russell E. McKelvey, general manager of the Western Carolina Telephone company, appears in the current issue of Telephony, nationally circulated telephone periodical.

The article, titled "Small Companies Can Use Telephone Carrier Equipment", is based upon the experience of the local company in installing this new carrier equipment between Sylva and Cullowhee. The installation there occurred about six months ago, the Western Carolina having been one of the first firms in the nation to put in this new type of equipment.

The article is illustrated with a photograph of Mr. McKelvey.

paralysis fund, it has been announced.

Features of the entertainment, in addition to the auction sale of boxes, will include a musical program by Rudolph Carter and his Happy Ramblers, a group that is heard each Saturday over Station WHCC, Waynesville; cake walks; and a beauty contest.

26 Students

**At Slagle Are Taking
Craft Course**

Twenty-six students from Slagle school are taking courses in the field of related crafts and weaving, under the direction of Miss Frances Barr, director of the Nonah craft center in the Cartoogechaye community.

The classes, which are held Tuesday and Thursday of each week, are held in the recently constructed craft center building which is located near the Slagle school house.

E. G. Crawford, principal of the school, said that the work will be classed as a school of art course for the children, and that records of their progress will be kept. At present children from the fifth through the eighth grades are enrolled in the classes.

WHY

**GENERAL ELECTRIC
PUT LOWERED PRICES
AHEAD OF OTHER THINGS**

General Electric lowered prices because we wanted to do our part to stop the present spiral of inflation.

General Electric lowered prices on electrical appliances in greatest demand—because that is where lowered prices on General Electric products will do the most good and have the greatest effect.

General Electric lowered prices regardless of the fact that G-E profits are not high—are not at present levels high enough.

We did this because we know that in the long run General Electric can prosper only as the people of this country prosper. We believe that producing more goods for more people at less cost is the soundest way of running a business. And we feel that inflation in this country has reached a dangerous level—for the wage earner, for the man with savings, and for industry alike.

Do you know what inflation can do to you?

As money buys less and less, your savings lose their buying power. Life insurance policies dwindle in value. Money saved to take your wife to the hospital won't pay the bill when the time comes. Pay checks buy less and less. Retirement money won't pay for retirement.

This applies to the man who brings home a weekly pay check, to the man with a little savings in the bank or a life insurance policy, and to companies that have to build new plants and buy new machines to fill future needs and provide future jobs.

Inflation is a sinister thing. It steals up on a country and its economy in a gradually accelerating two-step of prices and wages—each trying to get one step ahead of the other—and there is no red line to show when the danger point has been reached.

Inflation is like a fire. Once it gets well under way, it can never be checked until everything is destroyed.

**Self-restraint by industries and individuals
the best check**

You as an individual can do most by buying less and saving more—thus avoiding bidding up the prices for scarce goods. Business and industry can do much by lowering prices whenever and wherever possible—voluntarily.

General Electric put lowered prices ahead of other things because we believe it is a step towards licking inflation.

We Must Destroy Inflation or It Will Destroy Us
