**DR. BURNSIDE MOVES OFFICE**

**Veterinarian Purchases**  
East Franklin House  
For Office, Home

Dr. O. H. Burnside has moved his office to a building just outside the corporate limits, East Franklin.

Dr. Burnside purchased the house, which is located near the intersection of the Ingram road and the Franklin-Dillsboro highway, from Swain Roberts.

The veterinarian plans to use the home as an office and a residence. He said that this spring he plans to make some additions which will enable him to take care of both large and small animals there.

Prior to this, Dr. Burnside had been occupying an office in the Agricultural building.

**Dr. Michal Is District Health Head**

Dr. Mary Michal, who has been acting health officer for the past year and a half for the counties of Haywood, Jackson, Swain, and Macon, was appointed health officer at the recent meeting of the district board of health, held at Sylva. George A. Brown, Jr., of Waynesville, was reelected chairman of the board, and Dr. A. P. Cline, of Canton, one of the public members whose term expired this year, was reelected also. He will serve for four years.

J. H. Way, mayor of Waynesville, has been appointed by Dr. Carl V. Reynolds, state officer, to fill a vacancy caused by the withdrawal of Transylvania county to fill the position.

Dr. Michal had been serving as health officer since the resignation of Dr. C. N. Sisk, who took charge of the district which has headquarters in Morganton.

**Plan To Present Testaments For All Hospital Beds**

Plans to present a New Testament for each bed to the Angel hospital were made at a recent meeting of the Presbyterian Youth Fellowship group, according to John Flanagan, president.

To date, 14 testaments have been purchased and will be placed in the hospital within a few days. The group hopes within the near future to obtain a Bible for each room, and have set as their final goal a Bible for every hospital bed in Macon County.

Mechanical inspection requirements states that "all motor vehicles having a windshield shall be equipped with at least one windshield wiper in good working order for cleaning rain, snow, or other moisture from the windshield, so as to provide clear vision for the driver. All such devices shall be so constructed and installed as to be operated or controlled by the driver. All motor vehicles originally equipped with dual windshield wiper may not in this respect be altered and both are subject to the above standards."

There are the requirements, motorists! It's up to you to see that your car passes the test. If your vehicle has only one windshield wiper in good safe working condition—that's fine. But if the vehicle was originally equipped with two, then both of them MUST work.

Accident statistics of the Motor Vehicles department show that many accidents have been caused by poor windshield wipers—or ones that would not work in blinding rains and sleet, causing the drivers to lose their course on the highways.

**Auto Inspection Law**

(This is one of a series of the motoring public with articles designed to acquaint the requirements of the Motor Vehicle Inspection program).

**RALEIGH**—You bet your life when you drive without a windshield wiper, especially in the winter months when there is likely to be plenty of rain, snow and sleet.

Your State Department of Motor Vehicles considers the windshield wiper so important to safe driving that they are making it one of the requirements for passing the inspection test, which your car or truck must take this year.

Sprinkle with 1/2 cup grated cheese, and bake in moderate oven, 375° F., about 1/2 hr. Serves 4.

When can't you beat a drum? When it's a Washington's Birthday salad made like this: To 1/2 lb. of cream cheese, add 2 tps. of A&P's ANN PAGE GARDEN RELISH, and beat till smooth. For each salad, spread mixture about 1 inch thick between 2 tomato slices, and arrange strips of green pepper diagonally across filling.
