

Shell-less Egg
Resembles Some Ancient Monster

Something new in eggs was brought to The Press office this week by George Henry, of Franklin, Route 2.

The egg, which has no shell, is shaped something like a goose-neck squash, with tiny, dried "tails" at each end. Placed on one side, it resembles some pre-historic monster. The freak is on display in The Press window.

Young People's Sing Planned At Courthouse Sunday

The Young People's Community singing group will convene for the first session of the season at the courthouse here at 1:45 Sunday afternoon — the third Sunday.

Ernest Vinson, director, said that the general public is invited to attend.

After this month, the organization's sings will be held in different churches, and persons who wish to invite the group to meet in his or her church are asked to be present Sunday and see Mr. Vinson.

Singers from Rabun county, Georgia, and other out-of-county points, as well as those from various communities in Macon, are expected, it was said.

Cartoogechaye Men To Meet Saturday Night At Clinic

Men of the Cartoogechaye section are planning a meeting in the Recreational room of the Nonah clinic Saturday evening, at 7:30 o'clock. Moving pictures of Boy Scout activities are to be shown by Avery Means, of Asheville, Boy Scout field executive.

These men are sponsoring the Cartoogechaye troop of Boy Scouts. All men of the community are invited.

Motor Vehicle Auto Inspection Law

RALEIGH — When you take your vehicle to one of the state's Mechanical Inspection lanes this year, make sure the muffler is in good working order — for that's one of the requirements for passing the inspection test.

The Manual of Motor Vehicle Mechanical Inspection requirements states that "all motor vehicles with internal combustion motors shall at all times be equipped with a muffler in good working order to prevent excessive or unusual noise. The entire exhaust system, including manifolds, exhaust pipes, mufflers and tailpipes, shall be leak proof."

If you have ever driven behind a car or truck with a loud, roaring muffler, you know how offensive such a noise can be. So take your car to your nearest repair shop and have the muffler fixed immediately if it emits any unusually loud or harsh noise. And make sure that the entire exhaust system is leakproof.

Remember, motorist, you car has a date in '48. Prepare for it now by getting your car mechanically safe.
