By MRS. F. E. MASHBURN

Springtime greetings—

Yes, the birds are singin', frogs a hollerin', grass a growin', streams a flowin', farmers a plowin', women a cleanin' yards—'tis spring!

'Tis pleasant to visit the homes in Sugarfork and find people really getting along much better than they realize perhaps.

'Tis good to know that pantries and cellars are far from

empty, even in March.

Many men are busy cutting acid wood, pulp wood, saw logs and getting them trucked to market.

Among the new houses built recently are Mr. and Mrs. Ira Keener's. It is a concrete block structure built near the site of the old log house formerly occupied by Mr. and Mrs. Mack McCall.

Mr. and Mrs. Lee Keener have built a larger home in front of their small home. The new part is covered with tan brick-faced siding.

HOW TO CUT COSTS ON YOUR FARM ...Get a 'Jeep'

The Universal "Jeep" puts farming on a production basis, spreads its cost over many kinds of work. It lightens the farmer's tasks, works around the clock, does jobs that otherwise would require three or four separate machines.

FOR TRACTOR WORK

... The Universal "Jeep" operates hydraulic-lift and pull-type implements—has 4-wheel-drive power and traction for field work, with low speeds of 2½ to 7 m.p.h.

FOR TOWING...

The Universal "Jeep" makes a highly-efficient tow truck, capable of towing a braked load of 5,500 lbs., with plenty of reserve for steep grades and heavy going.

FOR HAULING...

The Universal "Jeep" carries up to 1,200 lbs. It has 2-wheel drive for conventional travel, 4-wheel drive for bad roads or off-road hauls.

FOR MOBILE POWER...

With optional power take-off, the Universal "Jeep" takes power wherever needed, operates many types of belt- and shaft-driven farm equipment.

Statements on this chart have been accepted by the Council on Foods and Nutrition of the American Medical Association.

Millions of American families during these days of high living costs are in danger of being under-nourished, warns the National Dairy Council, because housewives are buying according to prices and not according to food values. They stay within budgets but may jeopardize family health. So here, says the Dairy Council, is its "Guide to Good Eating"—a safe and sound nutritional guide, on which the council on foods and nutrition of the American Medical Association sets its seal of acceptance. Eat these foods daily to get the basic nutritional requirements of your body, and then eat whatever other foods you want to give you that satisfied feeling.

kins have opened their new tourist home, which is named River Rock Inn. It is located on Highway 64, on the Cullasaja river, almost opposite the "Lull-water Place".

A stretch of about two miles of road on Buck Creek, which was built by the Forest Service, is to be graveled by the state. For several years this connecting link of improved road has been badly needed by mail carriers and others. This better road opens a section where excellent vegetables and delicious apples are grown.

Walnut Creek needs four miles of road improved and hard sur-

faced to connect the wonderful cabbage county of Hamburg in Jackson county with the gravel road which connects with Highway 64 in Macon. The route to Atlanta from Hamburg would be 22 miles shorter. Franklin could share in the business of supplying these farmers' needs.

Two miles of road needs improving in the Gold Mine area to have a hard surface road connecting Turtle Pond road with the Gold Mine surfaced road.

Walnut Creek and Buck Creek will be a more livable place, too, when power lines are erected.

Insurance

Paid N. C. Families In '47
Totalled \$20,511,00

North Carolina families received \$20,511,000 in life insurance death benefit payments during 1947, as compared with \$18,220,000 in the previous year, and 20,259 policies in 1945, the institute reported. "Of the ag-

gregate 1947 payments in the state, \$15,379,000 was under 5-369 ordinary policies; \$1,967,000 was under 939 group life insurance policies; and \$3,165,000 was under 14,248 industrial insurance policies.

Farm fires exact a death toll of 3,500 annually and destroy more than \$90,000,000 worth of property. Burns are a leading cause of death and injury on farms, exceeded only by falls.
