County Food Handlers School Planned Here

will be given certificates, and the various establishments will be given display cards showing the percentage of their employees who attended the classes.

The classes will be conducted by representatives of the U. S. Public Health service, health educators from the State Board of health, and state sanitarians.

Similar schools, held last year at Waynesville and Cherokee, produced gratifying results, Mr. Thomas said, adding that those who attended the classes were enthusiastic.

The classes are for both whites and Negroes, Mr. Thomas said.

Questionnaire Seeks Ideas On Education

to offer their suggestions, through the questionnaire.

Only six questions are asked, and the commission points out that citizens can fill out the answers in a few minutes. From the answers, the commission expects to obtain many worthwhile and practical suggestions.

The questions deal with the quality of the education offered; school taxes; the salaries paid teachers; the purposes for which school buildings should be used; the subjects that should receive most emphasis; and ask for suggestions as to which are the weak points in the school system, and which are the strong ones.

The identity of those forwarding the questionnaires will not be made public, it was emphasized—in fact, the questionnaires do not have to be signed.

Heat: It's Taken From, Put Into Earth At Will

other purposes, after the heat has been utilized, he said.

Just below the F. F. A. shop, on the school hill, 360 feet of lead-covered, soil-heating cable, thermostatically controlled, in each of three beds will keep the soil at the proper temperature to fool the seeds planted in the beds into thinking it is late spring. The beds, made by the F. F. A. boys, are six by 43 feet each.

In constructing the beds, a base of three or four inches of sand was laid. The finger-size, flexible cable, spaced about seven inches, lies on top of the sand. A thin covering of sand was placed on top of the cable, and over this about four inches of dirt, with commercial fertilizer mixed with it.

One-half pound of certified Marglobe tomato seed was planted in one bed, and the other two will grow sweet potato slips. From 50 bushels of potatoes, the boys expect to raise from 50,000 to 75,000 plants.

W. W. Sloan, rural service engineer with the Nantahala Power and Light company, worked with Mr. Whitmire and the students in planning and constructing the beds, and the power company will meter the beds to get an estimate of the consumption of electricity for projects of this kind. Clemson college estimates place the electricity consumption at 20 to 25 kilowatt hours per thousand plants, for the season.

The cost of the electrical equipment for each of the three beds was about \$50. For the average farmer, it was said, a bed 6 by 12 feet would provide enough plants for his own use, with some left over to sell. Equipment for a bed of this size, it is estimated, would cost about \$25.

Miss Inez Crawford, of Franklin, who underwent an operation for removal of a lung at Western North Carolina sanatorium Tuesday of last week, is reported recovering satisfactorily from the operation.

150 On Wayah For Service, Despite Cold

"High Haven", the Jones camp, where Gilmer A. Jones had a roaring fire. But despite the adverse weather conditions, there was much planning, after the service, for a sunrise observance next year on mile-high Wayah.

The service, which opened with a trumpet prelude, played by Waymond Woerner, John Brock, and Fred Emerson, students at the Toccoa Falls (Ga.) Bible college, lasted just 27 minutes. Ministers participating

Mrs. Stalcup

Dies At Her Home Here At Age Of 86

Mrs. Alice Kelly Stalcup, 86, died at her home here Tuesday, following a long illness. She had been seriously ill for the past six weeks.

Mrs. Stalcup, a native of Haywood county, was a daughter of Sgt. Rufus P. Kelly, who was killed at Cumberland Gap in the War Between the States, and Mrs. Dorothy Edmonston Kelly Stalcup. She had lived in Macon County for the past 35 years and was a widow of the late Rev. J. B. Stalcup, a former pastor of several Baptist churches in Macon and Jackson counties. This Haywood county pioneer woman was a member of the Franklin Baptist church during her later years.

Funeral services will be held today at 10:30 a. m. at the Franklin Baptist church, with the Rev. C. F. Rogers, the Rev. James F. Marchman, the Rev. J. H. Brendall, Jr., and the Rev. A. Rufus Morgan conducting the service. Burial will follow in the Franklin cemetery.

Pallbearers will be Doyle W. Blaine, F. Hunter Calloway, James G. McCollum, William V. Cansler, Herman H. Plemmons, and Fred Vaughn. Members of the Order of Eastern Star will have charge of the flowers.

Surviving are seven children: Mrs. J. P. Russell, of Waynesville, Mrs. Harry Crerar, of Corvallis, Mont., Mrs. Fred S. Oliver, of Brevard, Mrs. Frank H. Jones, of Akron, Ohio, and George T. Stalcup, Mrs. H. Paul West, and Mas. Hyldah Shepherd, all of Franklin; 17 grandchildren; a half-sister, Mrs. W. R. Hupp, of Bryson City; and a half-brother, John N. Himes, of Canton.

Bryant funeral home was in charge of arrangements.

were the Rev. J. H. Brendall, Jr., Evans, and the Rev. R. H. Hull, the Rev. Mrs. R. H. Hull, the Following the services, hot Rev. D. P. Grant, the Rev. Hoyt coffee was served.
