126 Listed On School Honor Roll

Max Henderson, Viola Keener, Jimmy Sherrill. Miss Elizabeth Meadows: Thad Dowdle, Doyal Henson, Jeana Sue Cunningham, Clyde Houston, Bill Hunnicutt, Charles Baldwin, Adolph Conley, Lela Joan Gailey, Jean Blaine.

Fourth grade: Miss Edna Jamison: Tommy Gnuse, Monroe McClure, Margaret Allison, Ruth Ann Crawford, Jay Ann McCollum, Marjorie Moody, Beverly Stockton. Miss Esther Wallace: Crawford Moore.

Third grade: Mrs. Pearl Hunter: Randolph Bulgin, Helen Cochran, Margaret Jones, Joan Thomas, Tom Hunnicutt, Bobby Young, Julie S. Wallace.

Second grade: Mrs. Margaret Bradley: Jimmy Tysinger, Jean Phillips. Mrs. Elsie Franks: Rachel Brown, Joan Burrell, Susie Mashburn, Claudette McNeal, Frances Tallent, Perry Wiggins.

First grade: Mrs. Kate Williams: Olin Wood, Sue Bailey, Joe Ann Cunningham, Janet Green, Judy Sue Houston, Louise Long, Judy Mashburn, Betty Russell, Irene Green.

Number Of Cubs Are Advanced At Meeting Of Pack

A number of Cub Scouts were advanced at the meeting of Pack No. 1, held Sunday afternoon at the Franklin Methodist church. Also marking the meeting was a demonstration of knot tying. Cub Herbert McGlamery led the flag salute.

Bobat pins were awarded to Morris Jones, Mark Dowdle, Lewis Cabe, Tom Higdon, Richard Bryson, and Bryant Bryson. Wolf badges went to Billy Vanhook, Mark Dowdle, George Perce, Bobby Womack, Bill Mendenhall, and Tom Hunnicutt.

A bear badge went to Bill Hunnicutt. Richard Russell won the Lion badge; also Lion gold and silver arrows. Denner stripes were given Bill Hunnicutt, George Perce, Richard Renshaw, and Herbert McGlamery.

One-year service stars were presented Ross Zachary, Tommy Gnuse, and Bill Mendenhall; two-year stripes to Bill Hunnicutt, Richard Renshaw, and Joe Bingham; and a three-year stripe to Richard Russell.

C. R. Zachary is cubmaster.

W. R. Mason, Macon Native, Succumbs At His California Home

W. R. Mason of Franklin, Route 3, has received a message stating that his brother, B. Frank Mason, died at his home in Van Nuys, Calif.

Mr. Mason, 85, was a native of Macon County, having been born in the Leatherman section, the son of the late Mr. and Mrs. Jake Mason. He left Macon County as a young man and had lived in the West, devoting himself to mining, until he retired a few years ago.

Surviving are his widow; two brothers, W. R. Mason, of Franklin, Route 3, and Charles Mason, of Hayden, Colo.; two sisters, Mrs. Ella Cagle, of Jackson county, and Mrs. Deane Fizzell of Webster; three half-sisters, Mrs. Nobia Alexander, of Jackson county, Mrs. S. C. Leatherman of West's Mill, and Mrs. Oscar Rickman of Leatherman; and three half-brothers, Walter Mason and Arthur Mason, of Fairview, and Buell Mason, of Leatherman.

Rites Held At Iotla For Tallent Infant

Funeral services were held Sunday at the Iotla Methodist church for the infant daughter of Mr. and Mrs. Ralph Tallent, of Franklin, Route 3. Funeral arrangements were handled by the Potts funeral home.

Dowdle Will Manage Johnson's Campaign

War 2. Mr. Sloan makes his home in East Franklin, and is employed as advertising solicitor for The Franklin Press.

Meanwhile, Republicans are called to meet at the courthouse here Saturday at 2 p. m. to make their nominations for county offices, and J. J. Mann, chairman of the county board of elections, has announced that the board will meet Saturday at 11 a. m. at the courthouse to organize.

Mr. Mann recently was reappointed chairman, Ted Blaine was reappointed as the other Democratic member, and A. R. Higdon was named as the Republican member, succeeding Jesse Ray. The county board is named by the state board of elections, upon recommendation of the county executive committees of the two parties.

Clubs Here Will Hold Observance

Many home demonstration clubs in this county are observing Home Demonstration Club week, which was May 2 to 8, at their April meetings, according to Miss Carolyn Corry, home demonstration agent. It was impossible for all the clubs to meet during that week, Miss Corry explained.

Clubs that regularly meet during Demonstration week held their observances then, but other clubs, meeting later this month and early in May, will have special features at their meetings in observance of the week.

The Iotla club, meeting with Mrs. Walter Gibson next Wednesday, will have a quilting party. A plant show is planned for the Liberty club, meeting with Mrs. Kella Gibson Thursday. The Union meeting Friday, with Mrs. Sanford Mann, will be featured by a May basket surprise.

The Oak Grove club will have a flower exchange at its meeting April 20 with Mrs. Ray Bradley. The Cartoogechaye club the following day will have a flower show at Mrs. Cecil Crawford's. A flower and gift exchange is planned at the Cowee club meeting at the school April 23.

A feed sack display will mark the Burningtown meeting April 27 with Mrs. Robert Parrish. The Watauga meeting April 28 with Mrs. John Smith will be featured by a gift exchange.

Meetings early next month: May 3, Olive Hill, with Mrs. LeLand Roper, a fashion show; May 5, Maple Springs, with Mrs. Raymond Sanders, a kitchen improvement program; May 6, Otto, with Mrs. Hattie Norton, a feed sack review; and May 7, Cullasaja, with Mrs. Harry Thomas, a fashion show.

Hay-Curing Devices To Be Put In

One or more of the new hay-drying systems probably will be installed in Macon County this season, following a recent visit here of C. L. McCaslan, agricultural engineering extension specialist of State college.

Under the new method, the hay is cured in the barn by forcing air through it. An electric motor is used for the purpose. A group from Macon recently inspected such an installation in Buncombe county.

Mr. McCaslan conferred here with S. W. Mendenhall, county agent, and W. W. Sloan, Nantahala Power and Light company rural service engineer, and the three visited a number of Macon farms.

Mr. McCaslan designed installations adapted to the needs of the Holly Springs Stock farm, the Wayah farm of A. B. Slagle, and the farms of Walter Gibson and Ed Duvall, in the Iotla community.

OUR DEMOCRACY — by Mat

EVERYBODY'S BUSINESS

ONE OF THE BIGGEST DANGERS THAT THE INFLATIONARY SITUATION HOLDS IS THE ATTITUDE OF "LETTING GEORGE DO IT." ACTUALLY, IF THE PROBLEM IS TO BE MET, IT CALLS FOR CONCERTED ACTION BY THE GOVERNMENT, BY MANAGEMENT AND LABOR AND BY ALL OF US.

THE GOVERNMENT HAS A PRIMARY RESPONSIBILITY BECAUSE IT DETERMINES MONETARY POLICIES AND IS THE LARGEST SINGLE BUYER OF GOODS AND SERVICES.

MANAGEMENT AND LABOR HAVE A RESPONSIBILITY BECAUSE WHAT THEY DO AFFECTS DIRECTLY THE WAGE PRICE SPIRAL.

INDIVIDUALLY, EACH OF US CAN HELP REDUCE INFLATIONARY PRESSURES BY WORKING HARD, SPENDING PRUDENTLY AND PUTTING ALL WE CAN IN LIFE INSURANCE, SAVINGS AND GOVERNMENT BONDS.

Agent Gives 7 Points On Alfalfa Production

By S. W. MENDENHALL (County Agent) For alfalfa production, follow these seven points:

- 1. Select a well drained soil of good fertility. Alfalfa is a deep rooted plant, therefore will not do well on bottom land. 2. Apply lime on the basis of a soil test. Spread uniformly and work into soil as soon as possible. County agents will be glad to help in taking soil samples and having them analyzed. Experiments show that lime spread on the land but not worked into the soil will not maintain a good stand. Seed lespedeza or soybeans in the spring, to be disked down in August. 3. Fertilize with 700 to 1,000 pounds of 2-12-12 fertilizer and 20 to 30 pounds of agricultural borax at seeding. Even the best soils require fertilization to maintain a good stand and good yield. Ten to 15 tons of stable manure per acre disked into the soil before seeding is a good practice. Alfalfa that is seeded in the fall and properly fertilized will not require top-dressing the first year. 4. Seed-bed preparation. A good seed-bed should be firm and well pulverized with organic matter, such as lespedeza or soybeans, disked into the top layer of the soil to prevent baking. The soil should then be worked lightly to smooth the land and kill weeds that come up after the first disking. The fertilizer can be drilled into the soil any time after the first disking. 5. Seeding. Sow 25 pounds of inoculated Kansas or Oklahoma common seed per acre and cover lightly. Sow half of seed in one direction and cross seed the remainder. Cover seed with a drag harrow and follow with some type roller. Inoculation of seed is both inexpensive and easy, yet necessary for success. Late summer seedings around the last of August are preferred. The plants will be established before cold weather and the weed and grass competition will be less. 6. Cutting and curing. Alfalfa should be cut at the first sign of bloom, or when shoots appear at the base of the plants. Cutting too early weakens the plant and delayed cutting results in excessive shedding of the leaves. Rake the hay in wind-rows before the leaves are brittle to prevent shattering. 7. Management. Once a stand of alfalfa is established, it can be kept productive for several years by proper care. After the first year top-dress annually with 500 pounds of 0-9-27 or 0-12-12 fertilizer containing 20 pounds of borax. If 0-12-12 fertilizer is used, 300 pounds of 25 per cent potash should be mixed with it. Don't cut too late in the fall. A growth of six to 10 inches should be left on the land to withstand the winter and to start early growth in the spring. As a general rule re-seeding of alfalfa to thicken the stand has not been successful. Seeding six to eight pounds of orchard grass after the last cutting will improve this condition and increase the yield of good hay.

Feed everything you grow Vigoro, complete plant food. Clean, odorless, sanitary, and easy to use. Economical, too! Enjoy greater returns from your investment in seed, time and labor through complete feeding.

ATHLETES' FOOT GERM KILL IT IN ONE HOUR. YOUR 35c BACK. FRANKLIN, N. C.

HOME AND BUSINESS

Good seven-room dwelling—New store building—3 acres—on paved road 3 miles out—Convenient—Nice home and good business location—Really priced to sell—See us at once. A dandy Farm—70 acres—2 miles out on graveled road—25 to 30 acres in cultivation—Balance in pasture and woodland—Four-room house—electricity—A real farm bargain at the price. Two nice 6-room houses, ideal location, with all conveniences. Priced to sell. Standard Realty Co. (Mrs. J. H. Stockton, Mgr.)

Demonstration Club Women To Attend Waynesville Meet

Four automobiles will take Macon County home demonstration club women to Waynesville Tuesday to attend the special demonstration on "More Livable Homes". David Mobley, interior decorator from New York, will give the demonstration. Those who attended Farm and Home week last August will remember the interesting material that he presented them. Mr. Mobley will be at the Strand theatre in Waynesville from 10 a. m. to 3 p. m. Admission will be by ticket only. The Carson Chapel club has planned to take its group to the meeting, which will take the place of the regular club meeting. Other club members also may attend, where transportation is available.

State College Hints To Farm Homemakers

By RUTH CURRENT State Home Demonstration Agent Raisins, rice, powdered sugar, brown sugar, navy beans, and other such foods which are kept on hand in small quantities, are most easily stored in fruit jars; thus the contents can be seen at a glance. Also, dry foods are kept dry, and moist food moist. Here's a trick for taking the shine from the back of trousers and skirts. Sponge the shiny place with water containing a little ammonia. Then press with plenty of steam, and when dry, rough up the surface with a piece of emery paper.

If garments are to be sent to the dry-cleaner it is wise to inform the cleaner as to the kinds of spots present. This makes it possible for him to remove the spots before the general dry-cleaning process is used, and eliminates the possibility of any stain becoming "set." Remove the trimming and the headband of old straw hats before cleaning. Then to closely woven straws, like leghorns,

Plenty of Water for Kitchen Use

"Plenty of water for all needs," says Mrs. Will Holbrooks of Cowee, "now that we have installed an automatic Electric water system."

Before installing the pump, water had to be carried from a spring 600 feet from the house, regardless of the weather. This took a lot of time and a lot of work each day. Now 5c worth of electricity will pump and carry the equivalent of 400 buckets of water as needed. Can you afford to work so cheap?

Your dealer can give you an estimate of the cost of installation of an electric pump in your well or spring. A small booklet of suggestions and information about farm water systems is available at the Nantahala Power and Light Company office or the County Agent's office. Nantahala Power and Light Co. "Electricity is your cheapest and most faithful servant"
