For Maximum Milk PRODUCTION FOLLOW THE PURINA DAIRY CYCLE PLAN

Here's the Purina Program which is making milk for thousands of dairymen across America:

1. **Purina CALF STARTENA**  
Builds big, husky calves. Costs half as much to feed as milk.
2. **Purina DRY & FRESHENING CHOW**  
An extra 100 pounds of condition in the dry cow with "D & F" means 2,000 extra pounds of milk during the next lactation, according to Purina Research Farm records on Holsteins.
3. **Purina COW CHOW**  
If you have grain, feed a Purina supplement or concentrate. If not, feed Cow Chow straight with proper roughage.
4. **Purina BULKY LAS**  
Feed to help out poor pasture or hay. It helps keep up milk flow when summer pasture dries up. Mix with oats for heifer or dry cow feed.

## NO ROAD NEEDED

## The 4-Wheel-Drive 'Jeep' UNIVERSAL Gets Through to the Job

Whenever men, tools and equipment must be taken right to the job, the "Jeep" is the answer. It goes wherever the work requires—through mud, sand or bad roads and over terrain impossible to cross with ordinary vehicles. It operates with speed and economy on the highway in conventional 2-wheel drive; yet shifts instantly to 4-wheel drive for sure traction and steady pulling over rough country.

### POWER WHERE NEEDED

The Universal "Jeep" provides power when and where needed. With power-take-off the "Jeep" operates compressors, welders, generators, winches, blowers and other equipment which can be mounted on it.
