**SCOTT WILL BE The People's Choice BECAUSE.....**

1. He will bring better roads to the Farmers, not ask the farmer to drive over miles of secondary road to get to a "paved highway."
2. Through years of working up through the ranks from Farmer to County Agent to finally become Commissioner of Agriculture for the State of North Carolina, Scott knows the farmers problems and how to meet them.
3. He realizes that for a sound economy we must start at the roots. By helping the farmers, Scott feels that he is also putting money in the hands of the merchant and the garageman or filling station operator of the small town as well as the owners of factories and large companies in the cities.
4. Scott has not cluttered up his campaign speeches with hundreds of promises of giving the people "the moon and the sun for nothing." But the promise he has made of giving the people of North Carolina better government for their money he will keep.
5. Should the people of North Carolina continue to let the machine name their Governor or select one of their own choice? The total votes that any candidate receives should be a reflection of the people's will, not a vote produced by pressure, machinery and money.

**THE PEOPLE WANT SCOTT AND IF WE GO TO THE POLLS SATURDAY AND VOTE OUR CONVICTIONS, SCOTT, THE PEOPLE'S MAN, WILL BE ELECTED.**

**State College Hints To Farm Homemakers**

By **RUTH CURRENT**  
 State Home Demonstration Agent

When disconnecting an electric appliance cord, always grasp it by the plug—not the cord itself. This will prevent pulling the small wires out of place and so lengthen the life of the cord.

A light placed over the sink and another placed over the range in the kitchen pay big dividends in better light and better sight.

To prevent doors from squeaking, oil the hinges with a feather dipped in oil. Clocks, too, may be oiled in this way and the sewing machine.

**Unusual Cake Frosting:** Mint Chocolate—To make a simple mint chocolate frosting for a cake, melt chocolate-covered mints in a double boiler and spread on cake. Such a frosting hardens quickly and has a delicious flavor. Peanut Butter—If in need of a quick and delicious frosting, try this easy recipe. Mix one and one-half cups of powdered sugar with one tablespoon of peanut butter and add enough cream to spread. This is especially appetizing when used on a spice cake.

Place an apple in the cake box in which a cake is to be stored and the cake will not dry out so rapidly. This is an excellent idea for storing inexpensive fruit cakes also.

Keep a stiff brush near the laundry tubs and before putting any garment with pockets into the wash, turn the pockets inside out and brush thoroughly. This same handy little brush also is indispensable for brushing soap suds on stubborn soil such as is found on neckbands, collars, and cuffs of shirts. Brushing is easier and more effective than rubbing on a board.

Q. Recently I built a shed out of country sawed oak boards. They had been sawed about two years. Now I am told that paint will not stick to this lumber. Is that true?

A. Oak is such a dense wood that paint will not work as well on it as it does on soft woods. In order to paint oak that is used for an outside surface, the pores in it need to be filled. Unless that is done, paint on an outside oak surface will begin to fail within about two years. Aluminum paint will not work any better than ordinary paint. About the only satisfactory way to change the appearance of oak used for outside surfaces is

**Social Security Man To Be Here Next Week**

A representative of the Asheville field of the Social Security Administration will be at the register of deeds office here at 9 a. m. Friday of next week, it has been announced.

**Daniel Ledford, 23, Franklin Negro, Is Found Dead In Bed**

Daniel Ledford, 23-year old Franklin Negro, was found dead in bed at the home of his brother-in-law, Bill Fuller, here the morning of May 16. A physician was summoned, and said death was due to a heart affection.

The son of Frank and Minnie Ledford, of Franklin, he was buried at Angel cemetery, in the Sugarfork community, following services at the home of his parents at 3 o'clock Wednesday afternoon of last week.

to stain it. But stain, of course, will not provide any protection. It merely changes the looks.

Q. How does the feeding value of oats compare with corn?

A. Oats are worth about 90 per cent as much as corn for dairy cows, but they are worth only 80 per cent as much as corn for feeding pigs. The difference is due to the oat hulls. Pigs are not quite so able to digest the hulls as are cattle.

Q. Is there an orchard spray which will not be harmful to bees?

A. The answer is no. There is no spray which will kill off injurious insects and not harm the bees. To prevent injury to bees, it is recommended that no poisons be used while there are any blossoms on the trees.

**Attention Farmers . . . HICKORY LOGS WANTED**

The Saw Mill at Highlands Briar, Inc., is now in operation under new management. We pay cash for hickory, oak and poplar logs. Also lumber. See Mr. Peek at office or phone 260-J.

. . . Highlands Briar, Inc.

Are you planning to head for your favorite picnic spot this week-end? Then now's the time to head for the big round-up of picnic foods at your thrifty A&P. When you feast your eyes on these wonderful buys, I'm sure you'll agree that it's a picnic to shop at A&P.

**"PICK-UP" PICNIC SALAD**

If you like potato salad, but don't like being burdened with plates and forks when you go picnicking, here's how to turn it into finger fare: Place each portion on a slice of bologna, and roll to form a cornucopia. And if you want to add that "chef's touch" to your salad, be sure to make it with plenty of delicately spicy ANN PAGE FRENCH DRESSING from the A&P. It's simply delicious and a fine value, too.

**THERMOS THREESOME**  
 To fill picnickers with delight, fill your thermos with one of the 3 grand-tasting blends of A&P COFFEE . . . EIGHT O'CLOCK (mild), RED CIRCLE (medium) or BOKAR (strong)! They're all as fresh as all outdoors because A&P COFFEE is sold in the whole fresh bean . . . then Custom Ground before your eyes, just right for best results in your coffeemaker.

**BREADS FOR SPREADS**

Picnics call for good sandwiches, so I call for MARVEL breads at my A&P whenever there's an outing in the offing. For hearty sandwiches I choose crunchy-crust MARVEL RYE BREAD . . . for daintier ones, thin-sliced MARVEL SANDWICH BREAD and MARVEL RAISIN BREAD.

**"OUTSIDE IN" CUP CAKES**

Since frosting on the outside of picnic cup cakes usually ends up on the outside of picnic-goers, I cut off the tops of my cakes, put the frosting inside and replace the tops. For this "inside job" I melt 2 tbsps. shortening, remove from heat, and add 1/2 cup A&P's flavor-rich IONA COCOA, a dash of salt and 1/2 cup milk, stirring till thickened. Then I add 2 cups confectioners' sugar gradually and 1/2 tsp. vanilla, and beat well. This makes enough for a dozen medium-sized cup cakes.
