**REQUIRE DOGS
BE VACCINATED
AGAINST RABIES**

same vaccinated annually by a rabies inspector.
It shall be the duty of the health officer to appoint a sufficient number of rabies inspectors to carry out the provisions for vaccinations.
The fee for vaccination is \$1 per dog if it has had previous vaccination. If no previous vaccination, the fee will be \$1.50.
It shall be the duty of the sheriff and his deputies to assist the rabies inspectors in the enforcement of vaccination against rabies.
It shall be the duty of the sheriff, with the assistance of the rabies inspectors, to make a thorough canvass of the county and frequently thereafter to determine if there are any dogs that are not wearing the metal tag provided for the dog after its vaccination.

If dogs are found not wearing tags the sheriff shall notify the owner to have same vaccinated by a rabies inspector and to produce the certificate provided within three days. If the owner fails to do this, he shall be prosecuted in accordance with the law.

If the owner of the dog not wearing the tag cannot be found, it shall be the duty of said officer to destroy said dog.

It shall be the duty of the owner of any dog born after the annual vaccination period or any dog not six months old at the time of vaccination period to have the same vaccinated when it becomes six months old.

All dogs shipped or otherwise brought into this state shall be securely confined and vaccinated within one week after entry and shall remain confined for two additional weeks after vaccination unless accompanied by a certificate issued by a qualified veterinarian.

The county health officer may declare quarantine against rabies in any designated district when in his judgment this disease exists to the extent that the lives of persons are endangered and all dogs in said district shall be confined on the premises of their owner or in a veterinary hospital.

When quarantine has been established, and dogs continue to run at large, any police officer or deputy sheriff shall have the right after reasonable effort has been made to apprehend the dog running at large, to kill said dogs and properly dispose of their bodies.

Every animal having rabies, and every animal known to have been bitten by another animal having rabies, shall be killed by its owner or by a peace officer.

Every person who owns or has possession of an animal which is subject of having rabies and which has symptoms of or has been exposed to the disease, shall confine such animal at once for at least three weeks and until released by a rabies inspector.

The head of every animal killed for having rabies or being suspected of having rabies shall be properly prepared and sent at once to the state laboratory.

Any person who shall violate regulations of vaccination or quarantine of the disease of rabies shall be guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not less than \$10 or more than \$50, or imprisonment of not less than 10 days or more than 30 days in the discretion of the court.

PET DAIRY PLANTS Are Dedicated to An Ideal

Pictured here are five of Pet's modern dairy plants. It is to these -- and the other Pet plants throughout the south -- that the more than 15,000 especially selected dairy farmers, who can meet Pet's rigid health and sanitary regulations, deliver the rich, wholesome daily fresh whole milk and daily fresh sweet cream you always taste in Pet Ice Cream.

Pet has spared no expense... each plant is equipped with the newest and most modern scientific equipment money can buy. Each plant is staffed with highly trained laboratory technicians and plant personnel. This combination, plus the fact that only daily fresh whole milk and daily fresh sweet cream go into Pet Ice Cream, is the reason Pet

produces the smoothest, richest, most satisfying ice cream you've ever tasted!

Pet's ideal is quality...the highest quality in all of its products...and, each Pet plant is dedicated to maintain this ideal at any cost!

And, Pet has found the only way to do it!... simply by combining the highest quality, rich, daily fresh whole milk, daily fresh sweet cream and the choicest fruits, nuts, and natural flavorings... with skill, science and modern equipment!

After all, the proof of quality is in the eating. So, take home a pint or two of Pet Ice Cream today. And, compare it with any other ice cream. We're satisfied you will agree, that... as to flavor, body, texture and quality... Pet Ice Cream tops them all!
