## Hogs Need

Plenty Of Shade And Water Hot Days

Hogs need plenty of shade and plenty of water if they are to make cheap gains during the summer, according to Jack Kelley, extension animal husbandry specialist at State college.

Test after test conducted by experiment stations, he said, shows that hogs kept cool during hot weather will eat better and gain faster. Plenty of shade and water, he added, mean fewer dead pigs and faster gains so that hogs can be placed on the market earlier in the fall when prices are usually higher.

"Hogs are different from most animals in that they do not have sweat glands to act as a cooling system," Mr. Kelley stated. "Therefore, it is absolutely necessary that they have plenty of water and shade to help in keeping them cool. The thick layer of fat on swine serves as an insulator and makes it necessary that water and shade be provided."

## List Foods

Plentiful During July

Late-crop Irish potatoes will be "a good food buy through all July," luscious, vitamin-rich tomatoes running a close second in the fresh vegetable field, the Production and Marketing administration has announced.

In listing the foods expected to be in most plentiful supply in the next few weeks, the U. S. Department of Agriculture points out that Irish potatoes—the July "star" among plentiful—yield both food energy and important minerals and vitamins, as well as a little protein. As for tomatoes, USDA nutritionists list them as very important suppliers of vitamin C, with generous amounts of Vitamin A also.

Cantaloupes, oranges, and lemons also are listed among the fresh foods expected to be plentiful throughout July. Other foods on the list include the following canned products: Peas, pumpkin, sweet potatoes, tomato juice, tomato catsup, tomato paste, tomato puree, apples, apple sauce, apple juice;

Franklin again from Saturday, August 21, through Saturday, August 28, according to an announcement received here from the N. C. Department of Motor Vehicles.

During its week here during May, the lane approved 627, or approximately one-third, of this county's registered motor vehicles.

The lane, which is set up to serve Macon, Cherokee, Clay, Graham, Swain, Jackson, Haywood, and Transylvania counties, will observe the following schedule from July 1 through October 1.

Waynesville, July 1 to 13; Canton, July 15-29; Brevard, July 31-August 10; Sylva, August 12-19; Franklin, August 21-28; Bryson City, August 31-September 6; Robbinsville, September 8-13; Murphy, September 15-22; Hayesville, September 24-29; and Waynesville, October 1.

The Tar Heel State produced nearly 10,000 acres of watermelons in 1947.

## HERE'S HOW North Carolina Cities, Towns and Counties are using BEER TAX REVENUE

Last November, \$1,784,821 in beer taxes (representing July, August and September collections) was distributed to North Carolina municipalities and counties wherein beer is licensed to be sold. How is this money being used? The results of a recent survey hold great interest for the State's taxpayers:

Tax Load Reduced

Twenty-six municipalities and 28 counties report that the new beer revenue would enable them to REDUCE TAXES, and three other counties said it would help in that direction. Thirty-four municipalities and 34 counties indicated it would aid in PREVENTING

TAX INCREASES. Other welcome uses included MEETING INCREASED EXPENSES and APPLICATION ON DEBT SERVICE.

In some instances, EXTRA CITY AND RURAL POLICEMEN are being employed from the funds, resulting in improved law enforcement.

Other uses include STREET IMPROVEMENTS, PURCHASE OF EQUIPMENT and SANITARY SEWERAGE EXTENSION.

SCHOOL BUILDINGS are being planned, SCHOOL EXPENSES met, and county HEALTH AND WELFARE programs

financed—from beer tax revenue.

Other constructive utilization of these funds includes: COUNTY LIBRARY BUILDING, NEW FIRE STATION, COURTHOUSE ENLARGEMENT, PURCHASE OF PROPERTY for county purposes.

And so on—an impressive array of sorely needed services and facilities made possible by the apportionment of beer tax revenue to towns, cities and counties licensing the sale of beer.

USING 1947 beer taxes as a basis for estimate, nearly \$4,000,000 of this "bonus" revenue is anticipated for North Carolina municipalities and counties this year—money that will relieve the burden of hard-pressed taxpayers. Safeguarding these millions is an objective of the Self-Regulation Program of the North Carolina Division, U. S. Brewers Foundation. You help us mightily when you give your patronage only to those beer retailers whose places of business reflect complete respect for North Carolina law and North Carolina civic and social standards.
