

State College Hints To Farm Homemakers

By RUTH CURRENT
State Home Demonstration Agent

Oven meals are fuel savers and with a little care in selection of foods which require the same temperature many appetizing menus can be planned. When such an over combination of foods has been found, write it in a notebook for future reference. If this is done each

time one plans a different combination of food, much time will be conserved.

Many homemakers have adopted the plan of distinguishing favorite recipes by filing them on cards of some special color.

When trying a new recipe for the first time, it is a good plan to tabulate its degree of popularity with stars. One star may indicate that it is good; two stars, very good; three stars,

excellent.

If not sure whether the baking powder you have on hand is still fresh, it may be tested in this way: Mix one teaspoon of baking powder with about one-third cup of hot water. If the mixture bubbles energetically, the baking powder is still active and can be used safely. If the bubbling is very slight, or if it does not bubble at all, the baking powder has lost its strength and should be thrown away.

In washing fine china, use a mild suds comfortable to the hands. Never use scouring powders or steel wool on dinnerware as these may damage the glaze. Raised decorations and embossing may be cleaned with a soft brush. Rinse with hot, not boiling water. Dry with a lintless cloth.

Ordinary dishes should not be subjected to extremes in temperatures as this treatment may crack the glaze. When warming dishes, never put them in a hot oven—instead use very hot water.

ADMINISTRATOR'S NOTICE

Having qualified as administrator C. T. A. of T. B. Crunkleton, deceased, late of Macon County, N. C., this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned on or before the 13 day of August, 1948 or this notice will be plead in bar of their recovery. All persons indebted to

SHOULD SEED ALFALFA NOW

Mendenhall Emphasizes Importance Of Good Seed Bed

By S. W. MENDENHALL
(County Agent)

Farmers who intend to seed alfalfa this month should be working on the seed-bed now.

A good seed bed is most important. It should be firm, well pulverized like a garden, and have the proper amounts of lime, fertilizer and stable manure. These materials should be applied to the land and worked into the soil at the same time that a legume cover crop is being cut in with a bush and bog harrow.

On land that has not been limed, one and one-half to two tons should be applied. Fertiliz-

IN APPRECIATION

We wish to express our sincere thanks for the beautiful floral offerings, and for the kindness shown during the illness and at the time of the death of John C. Byrd.

said estate will please make immediate settlement.

This 13 day of August, 1948.
EARL CRUNKLETON,
Administrator, C. T. A.

A19-6tp-S23

by with 800 pounds of 2-12-12 fertilizer that contains borax. Cover the land with manure.

Cross-seed 25 pounds of inoculated Kansas or Oklahoma Common seed per acre. Cover the seed with a drag harrow and follow with a cultipacker or roller.

Alfalfa should be seeded this month if possible, and not later than September 15.

A new bulletin has been prepared on alfalfa production that any farmer who is interested may obtain from the county agent's office.

Increases in the values of high-moisture ear corn of from 20 to 70 cents, at fuel and power costs of 2½ to 9½ cents a bushel, were obtained with experimental driers using forced heated air in research by agricultural engineers of the USDA.

\$1.00
EXTRA TRADE-IN ALLOWANCE
FOR YOUR OLD TIRE ON A
New B.F. Goodrich Silvertown

The above allowance is over and above our regular trade-in allowance. Just clip this coupon and bring it in. You save an extra \$4.00 on a full set of tires.

LIMITED OFFER—ENDS SEPT. 4th

Play safe, too, by acting promptly on this offer for new B.F. Goodrich Silvertown tires. Tougher cords, and more of them, give more strength to the tire body for extra safety. Double shock-absorber breaker strips cushion and distribute sudden shocks and blows for extra protection against severe bruises and blowouts. In addition, the wider, flatter tread puts more rubber on the road to share the wear for extra mileage that means greater savings.

Every B.F. Goodrich Tire Carries A **LIFETIME GUARANTEE** Easy Monthly Payment Plan

And **FOR A REAL LOW PRICED TIRE**

10 95 BUYS A GENUINE **B. F. Goodrich** DEFIANCER TIRE
6.00-16 PLUS TAX

The new Defiance gives dependable, safe mileage for the greatest value ever built into a tire at this low price. The Defiance has a wide, full-depth, husky, non-skid tread. Improved high-tensile cord gives greater bruise resistance.
