NEW RATES
on **SHORT-TERM Subscriptions**

Now In Effect

In the past few years every single item that goes into the production of a newspaper has advanced in cost—and kept on advancing! The paper The Press is printed on, for instance, costs 50 per cent more today than it did two years ago.

To meet these rising costs, most weekly newspapers have increased their subscription rates, many of them to as much as \$4 per year.

But the subscription price of The Press has remained unchanged. It still is the same low rate of \$2 a year.

And even now no increase is being made in the YEARLY rate.

But some dozen operations are required in a newspaper office every time a subscription is renewed. That work takes time, and time is money.

And it takes just as much time to enter a renewal for three months as it does for a year.

SHORT-TERM subscription rates, therefore, are being slightly increased, effective with this issue.

Old Rates	Three Months	New Rates
\$0.60		\$0.75
1.00	Six Months	1.25
\$2.00	One Year	\$2.00

The Price of SINGLE COPIES Hereafter will be **6 Cents**
