Final Drive For Hospital Fund Planned

At a meeting of members of the board of trustees with local and summer Highlands residents Friday night at the home of Mr. and Mrs. George W. Woodruff, plans were outlined for a final active campaign to raise additional funds for the construction of the initial wing of the Highlands Community hospital.

It is hoped that sufficient funds in cash or negotiable pledges can be raised before construction is started, the chairman of the board said.

The board also reported that many of the summer residents have shown an active interest in the project and have not only donated cash, but have volunteered to contact their friends, some even promising to obtain a specified amount in their solicitation of close friends.

Members of the board of trustees are making a second effort to raise funds and obtain pledges of labor, services or material from local residents not already pledged, and it is hoped that construction can be started this fall. The result of the campaign now being waged will determine just how soon the work will begin, it was said.

Members of the summer colony who have pledged their support and volunteered to solicit funds are L. D. Rouse, William Deacon, D. M. Robertson, Frank Brownlee, Raymond Jones, C. E. Holcomb, Brandon Smith, Morton Hodgson, George W. Woodruff, Cuyler Trussell and Louis Reeves.
