spending two weeks with her  
parents, Mr. and Mrs. W. R.  
Waldrop, of Franklin, Route 1.  
Frederick A. Slagle, a student  
at Berea college, Berea, Ky.,  
spent last weekend visiting his  
parents, Mr. and Mrs. Fred  
Slagle of Franklin, Route 1.

Mr. and Mrs. H. T. Sloan left  
for Richmond, Va., last week-  
end to visit their daughter, Miss  
Dorothy Sloan, who was re-  
ported to be seriously ill, but  
whose condition is better now.

A. W. Reid, who has moved  
with his family to Miami, Fla.,  
for the winter, was here this  
week on business.

Mrs. George Buglin returned  
home last Saturday after visit-  
ing her brothers and sisters-in-  
law, Dr. and Mrs. Tom Brabson,  
of Cornelia, Ga. and Mr. and  
Mrs. John Brabson, of Demorest,  
Ga.

Dick Jones, Bill Sloan, Wil-  
ton Perry, John Archer, and  
Harmon Gunse attended the  
Tenn.-Miss. game in Knoxville  
last Saturday.

Carl Cobe left Sunday for a  
vacation trip to Rochelle, Illi-  
nois.

Mrs. E. W. Fisher returned  
home Friday from Winston-  
Salem, where she had been  
visiting her mother, who has  
been seriously ill.

Mr. and Mrs. Henry Christy  
have as their guests, Mr. Christy's  
mother, Mrs. W. S. Christy,  
of Norfolk, Va., his sister, Mrs.  
Finley Carson, of Milwaukee,  
Wis., and their niece, Mrs. Dor-  
othy Bryson of Balsam, N. C.

Mr. and Mrs. C. S. Townsend  
of Portland, Oregon have been  
the guests of Mrs. W. H. Sellars.

Mr. and Mrs. H. W. Swan of  
Rockmart, Ga. spent the week-  
end with their son and daugh-  
ter-in-law, Mr. and Mrs. Bill  
Swan.

Mr. and Mrs. Lester Arnold  
have moved into their new  
house on West Main street.

Mr. and Mrs. Allan Brooks,  
Mrs. W. H. Sellars, Mrs. S. H.  
Lyle, Jr., Mrs. Esther Frease, and  
the Rev. A. Rufus Morgan at-  
tended the consecration of Dr.  
George Henry of Charlotte as  
Bishop of the Western North  
Carolina Diocese of the Episco-  
pal church at Trinity church in  
Asheville yesterday.

Mr. and Mrs. W. V. Swan had  
as their guests last week, Mr.  
and Mrs. J. C. Long of Eustis,  
relief demanded in the com-  
plaint.

This the 23rd day of Septem-  
ber, 1948.

Clerk of the Superior Court,  
Macon County, North Carolina.

## NEW METHOD OF TREATING HAY IN USE HERE

BY S. W. MENDENHALL  
(County Farm Agent)

A new method of curing hay  
is being used at the Holly  
Springs Stock Farm in the Cat  
Creek Section of Macon County.  
Mr. Lawrence Simmons and Mr.  
George Cooke, co-owners of the  
farm, state that they are very  
well pleased with the forced air  
system of curing hay and that  
they believe this method would  
benefit many farmers of this  
section in saving hay crops and  
in producing a better quality  
hay.

Construction of the air dis-  
tribution system is relatively  
simple and can be made from  
rough lumber. The air is forced  
through a main air duct by  
means of an electrically driven  
fan specially designed for this  
purpose. The air escapes at the  
bottom of the main duct and is  
distributed over the floor area  
by a slatted floor built on top  
of an air tight floor, thus forc-

tucky, Tennessee and Alabama,  
he said.  
The average value per acre  
of farm real estate in North  
Carolina during July, 1948, was  
157 per cent higher than the  
1935-39 average. Only six states  
have had a larger increase, the  
specialist said.

The rise and continued  
strength in farm real estate  
prices and in demand for farm  
land has resulted largely from  
the strong demand for agricul-  
tural commodities and increases  
in farm incomes. The full price  
and income situation for the  
crop year 1948 is not yet de-  
finite. Record wheat and corn  
crops in prospect for the nation  
as a whole, however, point to  
somewhat lower prices. If this  
prospect develops, land values  
may not rise as much as the  
present high rate of land re-  
turns would indicate.

The relatively rapid increase  
in many farm cost items dur-  
ing recent months may be an-  
other curb influencing land  
values. Buyers in the present  
market must be prepared for a  
situation where rising costs may  
reduce their net income, even  
though gross income continues  
high, Mr. Williams said.

## BIRTHS

Mr. and Mrs. Sidney Martin,  
of Franklin and Asheville, have  
announced the birth of a son,  
September 20 in Mission hos-  
pital, Asheville.

Born to Mr. and Mrs. Claude  
Calloway, of Highlands, a son,  
Furman, September 21, at An-  
gel clinic.

## Farm Land Values At Boom Peak

Farm land values in 35 states,  
including North Carolina, now  
equal or exceed the boom level  
of 1920, according to Moyle S.  
Williams, extension farm man-  
agement specialist at State col-  
lege.

Mr. Williams pointed out that  
the only large area where land  
values are still below their 1920  
peak is the corn belt and the  
northern plain states. This is  
one of the areas where land  
prices boomed highest after  
World War I and where values  
dropped most during the 1930's.  
The present inflation seems to  
have reached its highest level  
in the southeastern states, espe-  
cially in North Carolina, Ken-

ing the air up through the hay  
all over the system. The warm  
air being forced through the  
hay absorbs the moisture in  
the uncured hay and carries it  
out of the barn.

On the first trial of his sys-  
tem, Mr. Cooke states that he  
cured both alfalfa and soy bean  
hay at the same time and that  
both were equally well cured,  
but without his system he  
would have lost most of his  
soybean hay due to rainy weath-  
er. In addition, Mr. Cooke  
says that his hay is much bet-  
ter than field cured hay, even if  
it is cured under ideal weather  
conditions, because he has saved  
practically all of the leaves  
which contain the high food  
value necessary for good milk  
production.

Mr. Cooke and Mr. Simms  
say that they will be glad to  
have interested farmers stop by  
their place and inspect the sys-  
tem and the hay cured by it.

## FARMERS NOTICE

Farmers who think that they  
will make 100 bushels of corn or  
more per acre are urged to no-  
tify the County Agent's Office  
in order that we may come and  
estimate the yield. Macon  
County will compare favorably  
with any other county in the  
State if all 100 bushel yields  
are reported.

Cotton, wheat, and tobacco  
made up about two-thirds of  
the dollar value of agricultural  
exports in every five-year per-  
iod from 1910 to 1940, with the  
exception of the World War I  
period.

During his brilliant baseball  
career Babe Ruth hit 714 home  
runs.

## Annuities Owned By 3 Million

More than one billion dollars  
of annual income for American  
families is represented by the  
more than three million annuities  
now owned with all U. S. life  
insurance companies, the Insti-  
tute of Life Insurance reports.  
Nearly one-fourth of this in-  
come is now being paid out to  
these families, 40 per cent ad-  
ditional is future income under  
contracts bought and paid for,  
and the balance is future in-  
come under contracts still being  
purchased.

At the start of this year, the  
annuities in force numbered 3,-  
269,000. They represented \$1,-  
009,000,000 of annual income,  
the first time that the total  
had topped the billion dollar  
mark.

Actual annuity income pay-  
ments to American families in  
the first half of this year were  
\$119,000,000 and it is believed  
that the 1948 payments will ex-  
ceed last year's payments will  
of \$220,000,000.

Total funds set aside by an-  
nuity owners with all U. S. com-  
panies, including accumulated  
interest, reached \$7,250,000,000  
by the start of this year. These  
are the funds from which fu-  
ture income payments will be  
made.

\$709,000,000

## Is U. S. Fire Loss In Single Year

Fires, nearly all of which  
could have been prevented by  
simple acts of caution, cost the  
nation \$54,706,000 in property  
losses during June, latest month  
for which figures are available.

This was an increase of 7.6  
per cent over June, 1947, indi-  
cating that fire losses are still  
going up, according to the Na-  
tional Board of Fire Under-  
writers.

After slight decrease in April,  
the upward trend was resumed  
in May.

June's fire losses bring the  
total for the 12-month period  
ending June 30 to a record  
breaking \$709,839,000, the great-  
est destruction ever recorded  
in a 12-month period in U. S.  
history.

For the first six months of  
1948, fire waste in the U. S.  
totaled \$386,480,000, which ex-  
ceeds by several million dollars  
the fire loss for the entire year  
of 1943. The 1943 loss was \$350,-  
235,000.

## Methodist W. S. C. S. To Meet On Thursday

The monthly meeting of the  
Woman's Society Christian Ser-  
vice and the F. S. Johnson Bible  
Class will meet with Mrs. L. S. C.  
Conley at 10 A. M. Thursday  
October 7.

Each lady is to bring a co-  
ered dish.

## Representative of Social Security Here Friday

A representative of the So-  
cial Security office will be in the  
Register of Deeds office Friday  
morning of this week. All per-  
sons who have reached the age  
of 65 are advised to contact a  
representative of the social se-  
curity office in order to safe-  
guard their federal insurance.

ing the air up through the hay  
all over the system. The warm  
air being forced through the  
hay absorbs the moisture in  
the uncured hay and carries it  
out of the barn.

On the first trial of his sys-  
tem, Mr. Cooke states that he  
cured both alfalfa and soy bean  
hay at the same time and that  
both were equally well cured,  
but without his system he  
would have lost most of his  
soybean hay due to rainy weath-  
er. In addition, Mr. Cooke  
says that his hay is much bet-  
ter than field cured hay, even if  
it is cured under ideal weather  
conditions, because he has saved  
practically all of the leaves  
which contain the high food  
value necessary for good milk  
production.

Mr. Cooke and Mr. Simms  
say that they will be glad to  
have interested farmers stop by  
their place and inspect the sys-  
tem and the hay cured by it.

## FARMERS NOTICE
