PTA CONDUCTS

ported, and was ill. Other features of the program included a reading by Mrs. R. S. Jones; reports; and an interest-

ing devotional, centered around the story of Sir Galahad, presented by the seventh grade students from Mrs. Virginia Ramsey's and Mrs. J. A. Flanagan's rooms, under the direction of Mrs. Flanagan. Two suggestions of the execu-

tive committee, presented by Mrs. Dowdle, were adopted without dissent. One was that the association, sometime before Thanksgiving, hold a "family night" cafeteria-style supper at the school, as a money-raising project. The second was that \$100 be distributed as prizes for good citizenship among elementary and high school students. Mrs. Dowdle said \$50 already

had been contributed for the purpose, and she felt sure the remainder could be obtained. The club went on record as expressing appreciation to the Lions club for the safety signs on the highway near the school; to the town for stationing a police officer at the entrance to the school grounds at school opening and closing times; and to those responsible for school road and grounds improvements.

ROLLER MILL TO OPEN

Now you can turn your wheat into flour, right here at home.

J. R. Berry's Roller Mill

3 Miles East of Franklin, in the Watagua Section

Will go into operation November 15. Equipped with all new machinery, it will produce white, graham, self-rising and bleached wheat flour, rye flour; and water ground corn meal.

In the past there has been no roller mill in this county and farmers had either to take their wheat away from home for grinding, or sell it. But that's all changed now.

A good farmer "lives at home". So be ready to have your own bread flour.

Sow wheat now. Get your wheat seed from Downs Feed and Grocery Company, Farmers Federation, or Ray Grocery and Feed Company.
