State College Answers**

Q. Where can I obtain information on improving my lawn?

A. Obtain a copy of Extension Circular No. 292, "Carolina Lawns," which was prepared by John H. Harris and Dr. Roy L. Lovvorn. This publication has recently been reprinted and copies are available from your county agent or from the Agricultural Editor, State College Station, Raleigh. It gives complete information on lawn grasses and clovers, preparing the land, fertilization and seeding, and lawn maintenance.

Q. What is the gestation period for rabbits?

A. The gestation period, or the period from mating to kindling, is 31 to 32 days. A very small percentage of litters may be kindled as early as the 29th or as late as the 35th day, but 98 per cent of the normal litters will be kindled between the 30th and 33rd days.

Q. How does moisture content affect the yield of corn?

A. U. S. Standard No. 2 grade corn calls for a moisture content of 15.5 per cent and all moisture above that figure must be deducted in calculating poundage for yield. In Watauga County, Ernest Hillard harvested 8,791 pounds of corn from one acre, and Ralph Norris harvested 8,844 pounds from an acre. Yet, after a test for moisture, Hillard had a yield of 115.1 bushels and Norris only 112 bushels. Even though the crops were produced in the same community, Hillard's corn had a moisture content of 21.7 per cent and Norris' 24 per cent. Dr. E. R. Collins says many farmers are selling dry corn from this year's crop without knowing how much is required to make a bushel. Transylvania County has solved this problem by supplying a moisture tester for the county agent's office. Farmers desiring to sell corn simply have the moisture content checked there.

The hog is one of the most valuable farm animals for converting waste and by-products of the farm into marketable products.

As the Spirit of Christmas unfolds itself over the countryside, we add our greetings and best wishes of the season.

A Christmas of joy and contentment; of peace, good cheer and happiness—that is our wish for you and yours this joyous Yuletide season,

Farmers Federation

**When it's a
genuine FORD PART**

When you need new parts for your Ford, here's one way to make sure they'll fit right, work right and last longer. Make sure they're Genuine Ford Parts. And the place to get them is "back home" at your Ford dealer's. Here, you'll get parts just like the ones that came new in your Ford, and you'll save money on this 4-way Ford service—

1. Ford-trained Mechanics
2. Genuine Ford Parts
3. Ford-approved Methods
4. Special Ford Equipment
