Today there are 23 professional forestry schools in the United States.

Heavy-gauge Alcoa aluminum has reduced weight of some blow torches by 40 per cent.

Automobile air filtering systems now are being made entirely of polished aluminum.

"I saw it advertised in The Press."

## B·Q·R COLD

You may expect prompt relief from cold symptoms by using "B·Q·R," a mild laxative and analgesic that leaves no drowsy after effects. Even if your cold has developed, use "B·Q·R" and see how quickly you feel much better. Be sure it's "B·Q·R"—accept no substitutes.

## EVERY THIRD MILE Built By Truck Taxes

When you hear someone say trucks get a "free ride," remember that every third mile of road built by North Carolina taxes is paid for by trucks. The more than \$20,000,000.00 they pay every year is enough to provide primary highway maintenance for a normal 3-year period.

Try to imagine North Carolina without the thousands of miles of highway which truck taxes have paid for. Many of the 1,800 communities which depend entirely on truck transportation would be virtually helpless... thousands of farms would be isolated!

Or—more to the point—imagine our highway taxes without trucks to share the cost. Your road taxes would be increased by more than \$20,000,000.00 per year.

Because trucks share the highway, they participate heavily in highway maintenance and construction cost. The result is that North Carolina gets more and better roads—and you get an efficient, economical transportation service second to none in the Nation.
