**NOTICE OF SALE**  
NORTH CAROLINA  
MACON COUNTY

Under and by virtue of an order of the District Court of the United States of the Western District of North Carolina made in a civil action therein pending entitled Reconstruction Finance Corporation and Oil City Trust Company vs. Mica Products Corporation, et al. by His Honor E. Y. Webb, the undersigned, who was by said order appointed Commissioner to sell the lands and personal property described in the complaint and in the judgment, will on the 15th day of September, 1952, at 12:00 noon on the premises of and at the plant of Mica Products Corporation located on Iotia Creek just off State Highway No. 28, about five miles north of Franklin, North Carolina, offer for sale to the highest bidder for cash, but subject to confirmation of the court, the following described real estate and personal property in Macon County, North Carolina, to wit:

**REAL ESTATE**  
FIRST TRACT: (Known as A. W. Reid Mill Site).  
BEGINNING at an iron pipe on the South bank of the Tennessee River at the old Iotia Ford of said river and runs S. 59 E. 17 1/4 poles to a stake on the north bank of Iotia Creek; then up said creek with its meanders to a point at the center of the bridge across said creek at the east end; then a southeast course with the east margin of State Highway No. 286 12 poles to a stake on the east margin of said highway; then S. 69 degrees 30 minutes E. 6 poles to a stake on the South bank of Iotia Creek near an old ford crossing said creek; then down said creek with its meanders to the mouth of said creek at the Tennessee River; then down said river with its meanders to the BEGINNING, being the same lands as described in a certain deed from Mrs. Minnie Ray (widow), et als, to Charlie Bradley, dated February 10, 1939, and registered in Book D-5, page 152, records of deeds for Macon County, North Carolina, and being the same property as described in a certain deed from Charles Bradley and wife, Ruby Bradley to A. W. Reid, dated August 27, 1945, and recorded in Book M-5, page 125, records of deeds for Macon County, N. C.

SECOND TRACT: (Known as Nantahala Power and Light Company Tract).  
BEGINNING at a 6" locust tree on the South bank of Watauga Creek, runs thence S. 40-44 E. 565 feet to an 8" black oak; then N. 80-16 W. 184 feet to an iron pipe; thence S. 67-11 W. 100 feet to an iron pipe; thence S. O-30 W. 327 feet to a stake; thence S. 57-28 W. 100 feet to a stake; thence S. 89-20 W. 173 feet to a stake; thence N. 85-57 W. 510 feet to a stake on the East bank of the Little Tennessee River and the South bank of Watauga Creek at the confluence of said streams; thence with the meanders of the South bank of Watauga Creek, 1115 to the BEGINNING. Containing 7.2 acres, more or less.

THIRD TRACT: Being that parcel of land conveyed to Mica Products Corporation by L. C. Thompson and wife, Grace Thompson, by deed dated January 7, 1948, recorded in Book U-5, page 366 in the office of the Register of Deeds of Macon County, N. C., and more specifically described as beginning at an iron pipe near the Southeast corner of the house on the property of Mica Products Corporation and runs thence N. 0 degrees 37 minutes W. 334 feet to an iron pipe; thence N. 67 degrees 18 minutes E. 100 feet to an iron pipe; thence S. 80 degrees 9 minutes E. 184 feet to a stake at a black oak; thence S. 10 degrees 24 minutes W. 403 feet to an iron pin; thence N. 75 degrees 15 minutes W. 210 feet to the point of beginning, containing 2.3 acres, more or less.

**PERSONAL PROPERTY**  
DeVilbiss Air Compressor, model UAG-5016-9, Ser. No. 150008 (new).  
Electric Motors;  
125 HP General Electric, Ser. No. 13E47 (used).  
50 HP Westinghouse, Ser. No. 4536747, type CS642C (used).  
25 HP General Electric, Ser. No. 710066 (used).

10 HP Westinghouse, Ser. No. 7408 (new).  
Fire Fighting Equipment (new).  
75 HP Case Gasoline Engine, Ser. No. 4509421, size LAE (used).  
Pulleys and Shafts (new).  
Cedar Rapids Rock Jaw Crusher, 9" x 35" (used).  
Chalmers Rock Roll Crusher, 24" x 14" (used).  
Cedar Rapids Rock Roll Crusher, 20" x 14" (used).  
Pioneer Rock Roll Crusher, 30" x 18" (used).  
Picking Table (new).  
Mud Screen, 9 sections (new).  
Crusher Screens, Revolving, 12 Sections (new).  
Revolving Dryer, Incl. New Oil Burner.  
Electric Transformers, 550V (new).  
Deming 4" Cent. Water Pump, Ser. No. DC49045, 600 GPM (used).  
Gould 2 1/2" Cent. Water Pump, Ser. No. 41046, 200 GPM (used).  
Diesel Engines;  
Buda—Model 6 DT 317-D3445 (new).  
Buda—Model 6 DT 317-D3445 (new).  
3-Drum Hoists;  
Sullivan—Class C 322, Ser. No. 16726, guaranteed as new.  
Sullivan—Class C 322, Ser. No. 16727, guaranteed as new.  
Electrac Tractor, Incl. Bulldozer, power winch and 6-yard scraper, model DDH, Ser. No. IL5260 (used).  
Diamond Portable Rock Crusher, model 300, Ser. No. 2319B (used).  
Caterpillar Tractor Model No. 10, Ser. No. PT2381 (used).  
Small Tools and Equipment.  
Gardner Denver Air Compressor with Caterpillar Diesel Engine, model WBC736D, Ser. No. 103976 (used).  
Chevrolet Truck No. 1 with 2 Ton Marion Dump Body, Ser. No. 8QVI-2530 (new).  
Westinghouse motor 5 HP, Ser. No. 7402.  
Chain Hoist.  
Fairbanks Morse Scale.  
Roll Crusher.  
Extra Screens (2).  
New Century Crusher.  
One Remington Electric Portable Adding Machine No. 241-1442.  
One Walnut Finished Typewriter Desk.  
One Walnut Finished Stenographer Chair.

Hot oatmeal for breakfast is the pep-giver that can start your day out right. It takes but a few minutes to prepare the flaky oatmeal many of us like best, but a bit longer if you prefer it creamy smooth. Whichever way you prepare it, oatmeal will not lose food value during the cooking period. Even when oatmeal is cooked several hours, there is no appreciable difference in food value from that cooked a few minutes, the nutritionists tell us.

As a tempting dish, oatmeal with cream and sugar leads in popularity. You may also add raisins or your favorite spices or dried cooked apricots or prunes. These changes will

bring approval from the members of your family. And by eating your oatmeal with brown sugar, it adds a delightful new flavor.

Never "strike when the iron is hot", if you are pressing any of the synthetic fabrics or even fabrics that are mixtures of synthetic and other fibers, clothing specialists warn. One touch of a hot iron has ruined many a garment.

It pays to start with low heat on any ironing job and then adjust the temperature to the fabric. Even cotton and linens, which generally can take a hotter iron than other fabrics, may have special finishes that call for less heat.

**Winter Cover Crop Gives Feed And Soil Protection**

You can have your cake and eat it too in the case of a good winter cover crop, according to J. H. Enloe, Jr., chairman of the Macon County Production Management administration committee.

If not overgrazed, winter cover can provide an abundance of inexpensive feed for livestock and at the same time do a good job of protecting and improving the soil, the chairman explained.

Mr. Enloe pointed out that a cover crop is Nature's own method of protecting and building the soil. The leaves, stems, and roots of the growing plants protect the soil over winter. If it is not so protected, much of the topsoil may be washed or blown away by the following spring.

Cover crops also take up and hold plant food which is returned to the soil when the crop is turned under in the spring. When the soil is unprotected, winter rains often leach

out much of the fertility, he continued.

Turning under cover crops also adds humus to the soil and improves its structure. This makes the land work easier and provides a more favorable condition for crop growth.

In addition, Mr. Enloe said, a good cover crop often provides feed for livestock. Usually this feed is much less expensive than the hay and other feeds that otherwise would have to be provided. Experiment station tests show that about 90 per cent of the potash, 50 per cent of the nitrogen, and 65 per cent of the phosphorus taken up by the plant is returned to the manure when the cover crop is grazed off.

Where the establishing of a good winter cover crop is the most needed conservation on the farm, the Agricultural Conservation program provides assistance in carrying out this practice, he said.

**Demonstration Club Meetings For Week Are Announced**

Meetings of home demonstration clubs in the county for the coming week have been announced by Mrs. Florence S. Sherrill, county home demonstration agent. They are as follows:

Today (Thursday): Holly Springs club with Mrs. Walter Taylor and Mrs. Bob Taylor at 2 p. m.

Friday: Mulberry club at the home of Mrs. Armalee Hunt at 2 p. m. Nantahala club at the school at 7:45 p. m.

Monday: Music appreciation program at the Franklin Methodist church at 1:30 p. m. Hickory Knoll club at the church at 2 p. m. Clark's Chapel club at the home of Mrs. Wiley Brown at 7:30 p. m.

Tuesday: Oak Grove club with Mrs. Clyde Pennington at 2 p. m.

Wednesday: Cartoogechaye club with Mrs. W. N. Dalrymple and Mrs. J. L. Martin at 2 p. m.

Thursday: Liberty club with Mrs. Inez Hunt at 1:30 p. m.

**State College Answers Timely Farm Questions**

Q. It looks like there's going to be a big turkey crop this year. Should I store my turkeys in hope of getting a better market price later?

A. "When your birds are ready to go, if the market price will return you a reasonable profit, I'd sell," says W. C. Mills, Jr., turkey specialist for the State College Extension service.

"Storage was not intended to be used as a speculative thing, but it is a place to hold your birds when you are faced with a loss," Mr. Mills qualifies his answer.

"Look at it this way," says Mr. Mills. "If my birds, when ready to market, will return to me less than production costs, I would store. That is not gambling."

He says that if he could afford to gamble and thought that by storing he could make a better sale, he might decide to store. However, he warns, there is plenty to lose, and plenty of turkey growers who do lose.

"Some stored last year when there was no cause to store and they lost," the specialist says.

He believes that the early market will be a little weak, getting stronger as the season advances with the Christmas market again leading in selling price.

**ADMINISTRATRIX' NOTICE**

Having qualified as administratrix of estate of John M. Hoyt, deceased, late of Macon County, N. C., this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned on or before the 3 day of September, 1953, or this notice will be plead in bar of their recovery. All persons indebted to said estate will please make immediate settlement.

This 3 day of September, 1952.

**FABRIC IS THE KEY TO FALL FASHIONS**

A knowledge of new fall fabrics is all you need to unlock a veritable treasure chest of fall fashion trends. Practically made to order are the new cotton tweeds that are so perfectly tuned to your budget and fashion requirements. This array of winter cottons exactly fills the bill for lightweight suit and dress comfort for fall and may later be worn under heavy winter coats. These weaves range all the way from cross-dyed woven types about the weight of gingham to nubby, bulky weaves that fool the touch as well as the eye. Included in the cotton story are the silk surah-type printed cotton corduroys and printed velveteens—even more convincing than those of last year.

Tweedy weaves in silks and synthetics are another important trend in fall dress fabrics. Many of them are in alpaca weaves, many are coarse weaves. All have a tweedy look—with multicolor nubs running through them.

like to use them in the new dry—just right for the rigidly clipped and arched silhouettes of suits. This fall, with the softening of the suit silhouettes the new suiting trend has softened. The traditional flannels and gabardines are still around but they are not as significant as in the past.

More news in suitings is the use of really bulky textures—almost coating weights—for jackets, skirts, and sometimes for the shirts as well. Most popular of this "winter suit" trend, however, is the bulky jacket with a flannel skirt dyed to match.

Among the top colors to be used this fall are the blacks, grays and bright blues but high fashion color news for the season centers around mossy greens and tawny brown tones of "harvest colors" with plum shades being very good in textured coatings. Red is not a fashion color but always a popular favorite.

Revised your thinking about woolen tweeds, too. Far from being only sporty, luxury tweeds are a fashion factor in coats, suits, sports wear, especially in bulky, soft textures and in black and white combinations. Velveteen with tweed is a promising combination for sports separates; velveteen trims are smart on tweed suits and coats. In general, tweeds have taken up where plaids have left off, for throughout the fabric market—plaids are noticeably in the minority.

"Supple" describes the incoming fashion of soft crepes and softer textured taffeta and faille for dresses. In high fashion circles, crepes are the big news; but, because they are not as youthful or as easy to wear you might prefer crisp taffetas. Dress designers give them body with pleats and tucks; they
