 It's football season and the Reverse play is in vogue, but the biggest Reverse of the season came the other day when Vice-President Nixon said that former president Truman's action in the Korean war was correct and that he should be commended on it. Just one year ago both Eisenhower and Nixon were going up and down the land saying that Truman's bungling of the situation is what got us into the Korean war. The effective way they were able to put this idea across to the people was perhaps the biggest factor in their election. Now Mr. Nixon says Truman did right. Confusing isn't it?

The board of directors of the Franklin Community Players last Thursday night named Holland McSwain, Sr., as vice-president, succeeding Mrs. Inez Crawford Murray, who has resigned.
 The organization's secretary-treasurer, Fred Dowdle, resigned as secretary, but kept his treasurer post. The directors named Mrs. Allen Siler to fill the vacancy, and Mrs. Grace Omohundro was appointed to the board.
 A mystery play, tentatively set for presentation some time in December, was discussed at the meeting.
