**IN THE SUPERIOR COURT NOTICE OF SUMMONS**

**NORTH CAROLINA MACON COUNTY RUBY DILLS ANDERSON vs. R. L. ANDERSON**  
The defendant, R. L. Anderson, will take notice that an action entitled as above has been commenced in the Superior Court of Macon County, North Carolina, for the plaintiff to secure an absolute divorce from the defendant upon the grounds that the plaintiff and defendant have lived sepa-

rate and apart from each other for more than two years next preceding the bringing of this action; and the defendant will further take notice that he is required to appear at the office of the Clerk of the Superior Court of Macon County, North Carolina, at the Court house in Franklin, North Carolina, on the 12th day of March, 1954, and answer or demur to the complaint in said action, or the plaintiff will apply to the Court for relief demanded in said complaint.

This the 10th day of February, 1954.

**KATE MCGEE**  
Clerk Superior Court  
F18-4tc-JJ-M11

Tract A, Tract B and Tract C of the Allman Cove Sub-division near the Town of Franklin, Macon County, North Carolina, as shown by a plat prepared by John H. Dalton, surveyor, on November 7, 1938, a copy of said plat being recorded in the office of the Register of Deeds for Macon County, North Carolina, in Plat Book No. 1, Page 92, reference to the same being hereby made for a more particular description of said tracts, except an undivided one-half interest in the mineral and mining privileges.

This 1st day of March, 1954.

**NOTICE NORTH CAROLINA MACON COUNTY**

Under and by virtue of the power of sale contained in a deed of trust executed by Norman S. Poole, dated July 1, 1953, and registered in Book 36 of Deeds of Trust, at page 281 in the office of the Register of Deeds for Macon County, North Carolina, default having been made in the indebtedness there secured, the undersigned Trustee will, at the hour of 12:00 o'clock noon on April 2, 1954, at the Courthouse door in Franklin, Macon County, North Carolina, sell to the highest bidder for cash the following

**NOTICE**

The Board of County Commissioners of Macon County will sit as a Board of Equalization and Review on Monday, Tuesday, and Wednesday, March 29, 30, and 31.

All Taxpayers desiring to appear before said Board will arrange to appear on said dates.

This will be a final notice to any persons who wish to appear before the Board.

**LAKE V. SHOPE,**  
Clerk to Board of County Commissioners.

**NORTH CAROLINA MACON COUNTY**

Under and by virtue of the power of sale vested in the undersigned trustee by a deed of trust executed by Iva Crisp and wife, Della Bryson Crisp, dated the 1st day of March, 1952, and recorded in the office of the Register of Deeds for Macon County, North Carolina, in Book No. 45, page 258, said deed of trust having been executed to secure certain indebtedness therein set forth, and default in the payment of said indebtedness having been made, I will on Thursday, the 1st day of April, 1954, at 12 o'clock noon, at the courthouse door in Franklin, North Carolina, sell to the highest bidder for cash the following described land:

**STORING FOOD IMPORTANT—**  
Milk: keep fresh milk tightly covered and under refrigeration. Dry, and evaporated milk in cans should be kept in a cool dry place. After it is opened dry milk should be kept in a tightly-covered container in the refrigerator.

Eggs: keep in a covered container under refrigeration. Never wash eggs until just before using. If only the yolk of the egg is used, keep the remaining white in a tightly-covered container. If only the white is used, put the yolk in a container and cover with water to keep it from drying.

Cheese: keep hard cheese in a tight container or wrapped in

waxed paper in the refrigerator. Slice as needed. Cottage cheese and cream cheese absorb flavors readily, and should be kept tightly covered under refrigeration.

Fruits and Vegetables: store greens and salad vegetables (unwashed) and refrigerate in covered pans or waterproof bags. Keep ripe fruits like peaches, plums and berries refrigerated and unwashed until ready to use. Foods like peaches, pears, and tomatoes may be ripened at room temperature and then stored in the refrigerator. Keep potatoes and cabbage in a dark, cool place, and well ventilated. Store dried fruits in sealed containers in a cool place, though not necessarily under refrigeration.

23 day of February, 1955 or this notice will be plead in bar of their recovery. All persons indebted to said estate will please make immediate settlement.

This 23 day of February, 1954.

**State College Answers Timely Farm Questions**

**Q. Can I grow good quality aromatic tobacco in Eastern North Carolina?**  
A. Chances are, no. Aromatic tobacco is probably more sensitive to the soil in which it is grown than any other crop planted in this region, making the selection and preparation of the soil highly important. A medium topsoil containing a mixture of sand, gravel and small rock fragments is best. The subsoil should be a clay loam or light clay. Neither the heavy clay soil, nor the light, sandy soils are suitable. In the Piedmont the soils which have generally produced the better quality aromatic tobacco are Madison gravelly sand loam or sandy clay loam. Applying sandy loam, and Cecil gravelly sandy clay loam. Another good soil not yet widely used is the Surry gravelly loam. In the foothills of the Mountains the Hale silt, Watauga, Clinton, Porters, and Ahe soils have regularly produced satisfactory yields. Rich and naturally fertile soil are not suited for aromatic tobacco production because they produce large plants with heavy leaves and other undesirable features.

**Q. As a sweet potato grower, should I change from Porto Rico to the Goldrush variety?**

A. Not entirely. Until the market acceptability for the Goldrush variety is more firmly established, your best bet would be to plant only part of your crop in this variety. In tests Goldrush variety sweet potatoes have outyielded the Porto Rico for three years. While the yield of Goldrush has been favorable, under certain conditions it tends to vein slightly. Also, it is quite susceptible to internal cork, but has a high degree of resistance to stem rot, or wilt.

**Penland Assigned To Cargo Ship**

Melvin B. Penland, storekeeper second class, son of Mr. and Mrs. Bayse Penland, of Franklin, Route 3, has reported aboard the cargo ship USS Betelgeuse for duty, the Fleet Home Town News Center announced this week.

Penland entered the navy in March, 1951, following graduation from Franklin High School, and received his recruit training at the U. S. Naval Training Center, San Diego, Calif. At the end of his recruit training, he was transferred to the store ship USS Pictor, which operated in Korean waters.

**Norton Is Graduated From Aberdeen School**

Pvt. Fredlee J. Norton, son of Mrs. Hattie Norton, of Dillard, Ga., Route 1, recently was graduated from the Ammunition Supply Specialist School of the Ordnance Replacement Training Center at Aberdeen Proving Ground in Maryland, it has been announced.

**Hurst Undergoing Training With Marine Regiment At Lejeune**

Marine Pvt. Carroll L. Hurst, son of J. D. Hurst, of Franklin, is undergoing a special training course with the 1st Infantry Training Regiment at Camp Lejeune, the Fleet Home Town News Center has announced.

Pvt. Hurst entered the Marines in October, 1953. Prior to that time he attended Franklin High School.

The Look of Tomorrow is in every '54 BUICK Today  
With completely new "years-away" styling—keynoted by the dream-car design of the panoramic sweep-back windshield.

**Take it Easy**  
*you don't have to prove a thing!*

**L**ET'S be sensible about this subject of horsepower.  
An all-American tackle doesn't go around tackling people in everyday life.  
A world-record sprinter doesn't have to demonstrate his prowess on city sidewalks.  
The better you are, the less you have to prove it.  
And that's how it is with a Buick CENTURY.  
Of course it's a spectacular performer—a car with *instantly* responsive action. It has to be, for it combines a high-compression 200-horsepower V8 engine with a nimble weight of only 3866 pounds as it comes off the assembly line.  
That's a power-to-weight ratio that chalks up a new record—a ratio that no other Buick has ever reached before.

It can spin your wheels on a dry pavement if you give it the gun, but why waste rubber?  
If some show-off wants to get the jump on you at a traffic light, why not let him have fun? He isn't kidding anyone but himself, when the name on your car is CENTURY.  
The real pride of owning such a car is simply this: You know so well what it can do that you never have to prove it.  
That lets you enjoy the tireless ease of its

gait in ordinary driving, when only a fraction of its eager power is working. It gives you a quick reserve for breasting a hill—and the happy knowledge that there's still more to come in a sudden emergency.  
Sure, this is more power than most people really have to have. But you can hardly call it extravagant, when you are buying more horsepower per dollar in a CENTURY than you get in any other car in America.
