L. D. TAGS FOR DEFENSE IN FUTURE

'Official' Program To Be Worked Here Through Groceries

Official Tag

Plans for making official Civil Defense identification tags available to all children and adults of Macon County were announced this week by A. C. Tysinger, C. D. director.

The identification tags are authorized by the federal Civil Defense and are an important safety measure for everyone, he noted, since they provided quick identification which would be helpful in case of accident, sudden illness, or any emergency, including air attacks.

Through special arrangements, instructions for ordering "Official Civil Defense Identification tags" may be obtained at displays in many grocery stores soon throughout the county, Mr. Tysinger explained.

He also reported that C. D. has tried to put this project into effect for three years, but has been blocked by lack of personnel and funds. Recently, however, the help of a large food manufacturer was secured in distributing the tags nation-wide, at-cost basis.

Each tag is permanently stamp-

ed with the wearer's name, plus the name and address of the person to be notified in an emergency. The wearer's birth date and the religious preference also are stamped on the smooth metal tag, which is carried on a non-tarnishable chain.

Cash receipts during the calendar year of 1954 from farm marketing of crops and livestock products produced in North Carolina totalled 926½ million dollars, a 2½ per cent gain over the previous year.
