Wrap packages of food neatly with just enough of the proper packaging material to do a good job. Extra wrapping slows up treezing and does no good in storage.

Except for the Thanksgiving and Christmas turkeys, trim meat off bones and store in

packages. It saves space. On freezing vegetables, gather when the vegetables are not too young, or too old, but just right

for eating fresh. Speed is the keynote. Get it into the freezer at home or at the locker plant as soon as you can, but pause long enough to: scald, or "blanch" or "boil", but for quality sake do it. Follow directions and time table in Extension Bulletin No. 280, then chill in icy or cold water. That does not mean soak, but get the heat that you have just put in completely out. Then put it

in a frozen food container. Temperature - place contain-ers where and how the manufacturers freezer book says. Store at zero degrees or below. When the temperature goes up or down above zero, the quality of the vegetable goes down and does not come back up. If you use the locker plant, plan so you make your trip to the plant as soon as the last container is sealed and labeled. You can buy a Buick SPECIAL like the one shown here if you can buy any new car.

You can boss this big and brawny Buick Sedan for just about the price of the smaller cars-even for less than some models of the three most widely known smaller cars. The price we show here proves that.

But you can't get anywhere else for the money what you get in this or any other new Buick - and that's something you really ought to look into.

For Buick sales are soaring to alltime best-seller highs this year just because more and more people are discovering how much more automobile their dollars buy in a Buick than the same dollars buy elsewhere.
