...by remodeling with CONCRETE

Add years of life to old buildings by remodeling with concrete. Replacing inadequate foundations, rotted floors, sills and walls with concrete results in further service from the original structure.

By utilizing much of the old construction you save material and labor. And concrete is moderate in first cost, needs less upkeep and repair, lasts longer. Result: **low annual cost.** Write today for free booklet.

Experienced North Carolinians build with concrete for greater safety and economy.
