There are two sides to every coin!

SAVING AND SPENDING are the two sides of every coin (every piece of "folding money", too). Your success in getting ahead financially depends largely on which side you look at FIRST. If you look at the SPENDING side first, you may never get around to the SAVING side at all. Better attend to your saving before you even start spending. Deposit the FIRST dollars out of every pay envelope in your savings account and spend what's left over. It's the only method of saving that REALLY works!
