You don't have to be a PENNY PINCHER

Getting ahead financially is not a matter of "pinching pennies." Quite to the contrary! Actually you can spend money more happily (because free from worries and misgivings) once you have embarked on a program of systematic saving.

First step is to establish the amount that you reasonably can and **most certainly** will save each payday. Then see to it that these dollars go promptly into your savings account every week . . . before they have a chance to go elsewhere. You'll have more fun spending what's left . . . when you do your saving **FIRST!**
