What better return on gilt edge security than 3 1/2 per cent, payable semi-annually?

What better security than first mortgage on Macon County real estate, conservatively appraised, where the loan cannot exceed two-thirds of its appraised value, with a monthly curtailment of the principal?

What better investment than the building of homes and improvement of homes in Macon County, which must necessarily add to Macon County's tax valuation, thereby adding to the amount of revenue needed to operate the county schools and the county government?
