Swafford's Sayin's

Service — above and before everything else. That's why people keep coming to my little ole country grocery. I'm here to serve—and if you don't get the service you want, please let me know.

It certainly is nice to have a grocery store out here in the country. People don't have to "dress-up" to come here. (I don't notice what people wear anyway.) Nobody around here cares if you wear patched overalls or a dirty dress and apron. In fact I like to see people who show signs of work. (Of course I mean fresh signs) if you come in from the field or garden and find that you need something from the store — don't go to the trouble to "spruce up" — come on as you are. If anybody comes in who don't like it — let 'em move on. The groceries you buy will be the same if you come in wet with sweat or if you come painted and perfumed. If you could see some that stop—you wouldn't care what you wear. Some of these hot days bring people in with brief shorts on and briefer what do you call it? about the other larger measurement. Comfortable? Sure. They don't care how they look. Nobody here, cares—So—come on—just be sure you wear something.
