Cabe, Music; Mrs. Wiley Brown and Mrs. Ardell Cabe, Recreation; Mrs. Clyde Pennington and Mrs. Wiley Brown, 4-H leaders.

Some North Carolina tobacco farmers are supplementing their incomes by growing vegetables for market.

EXPLAINS TERMS — Parrish Points Out Soil Bank's Benefits For '58

Macon County Farmers who are thinking ahead on their 1957 plans should keep in mind the benefits they can receive from taking part in next year's Soil Bank programs, Max Parrish, chairman of the Macon County Agricultural Stabilization and Conservation committee, said this week.

The chairman pointed out that the sign-up period for the Conservation Reserve is now under way and will continue until April 15, 1958; the sign-up for the Acreage Reserve agreements covering 1958 spring plantings (burley tobacco) will be soon announced. Both Soil Bank programs require the establishment of a Soil Bank "base". Mr. Parrish explained, and it is important that farmers understand the meaning of the term as well as several others. Another term which must be understood in order to meet requirements of the Soil Bank programs is "permitted acreage".

The Soil Bank "base" for a farm is the average of Soil Bank base crops grown on the farm for the two preceding years. (Soil Bank base crops, in general, are all crops harvested on the farm, except hay).

"Permitted acreage" is the farm acreage on which Soil Bank crops may be grown without violation of Conservation Reserve contracts or Acreage Reserve contracts covering the farm. The permitted acreage is made up of the Soil Bank base acreage less the acreage put into the Acreage and Conservation Reserve programs. Per-acre payment rates will be determined by the county A.S.C. committee. The rates will be based on the county "average" rate for all crops except tobacco, but they vary among farms primarily according to the land's relative productivity.

Mr. Parrish urges Macon County farmers who intend to put land into either the Acreage Reserve or the Conservation Reserve to get their Soil Bank bases established as soon as possible. Contracts and agreements cannot be signed until after the base has been determined by the committee. The chairman advises farmers to call at the county A.S.C. office for answers to any questions they may have on the application of Soil Bank regulations to their individual farms.
