CONLEY MOTOR CO.

Dealer Nos. 830 and 830-A

Measurements on the burley tobacco designated Acreage Reserve began Monday, March 17, according to Miss Mildred Corbin, office manager of the local A.S.C. office.

There are 48 farms to be visited and checked. Only the designated acreage will be measured now. This acreage should be staked off and ready for measurement when the reporter arrives at the farm, she said. The base acreage for each farm will not be measured before June. Producers who signed up in the Acreage Reserve have a permitted acreage of base crops, which cannot be exceeded. All producers know their base and are reminded to not exceed it or a violation will be on that farm.
