There are TWO sides to this story

This story is about newspaper advertising and how it serves TWO ways. It begins in the home where the lady-in-a-mood-to-buy starts her shopping by studying the ads in this newspaper to see where the best buys are.

The story continues in the advertiser's store where the lady comes to buy what she saw advertised.

Newspaper advertising helps the shopper to buy more wisely . . . helps the advertiser to sell more successfully. Yes, there are two sides to this story . . . and BOTH are good!
