

CARSON IS EXAMPLE —

Teen-Ager Can Learn Lot By Being On Dance Team

(Editor's Note: The following article appears in the February issue of NATIONAL 4-H NEWS. It is about Macon County's own Carson Square Dance Team. A picture of the team also is on the magazine cover.)

"We believe by belonging to a square dance team a teenager can learn many things—cooperation, leadership, poise, self-confidence and grace," says Mrs. Esther C. Cunningham, leader of a junior and a senior 4-H Club in Franklin, N. C. And with the belief that wholesome recreation is as proper as prayer, this local leader tells how youngsters are taking to her belief.

Teen Tastes

Like many a club leader, Mrs. Cunningham found the older high school set harder to tempt to long membership. Her daughter Brenda, whose main project was recreation, suggested that invitations be sent every teen in the community for a square dance party. Idea was to form a team from the ranks. Mrs. Cunningham delved into library books as a refresher and the plan was put into action.

At the first party, balloons were passed out to be tied to each youngster's leg. Everyone then danced, trying not to break the balloons. There were many "casualties," but everyone had fun. A week night was set aside for dancing; and 16 members now compose the square dance team. Substitutes on the waiting list are also invited to join in — usually

at alternating parties given by members.

Recreation Healthy

Recreation plays an important part in youth development, Mrs. Cunningham feels. "If children learn to play well together, they are likely to get along better with their husbands or wife in later years," she points out. She offers to other leaders the challenge that led her to accept and follow through on her daughter's suggestion:

"I am sure we are all doing our best to build the best homes possible for our families. I am sure we all want our children to make a success of their lives. But what is success? I believe that real success is happiness.

"Good wholesome recreation in our youth helps us to learn what makes for real happiness. As Norman Vincent Peale says, 'One of the chief attributes for success is the ability to adjust to work with other people.' People succeed or fail to the extent that they have this attribute.

"Through our dance team we are stimulating interest in 4-H," Mrs. Cunningham happily reports. "Our group has enjoyed trips, parties, get-togethers — and all the fun of dancing together. I recommend this idea heartily to other communities."

The square dancers have played to some 15 different audiences. A local string band is now interested in them and helps with practice sessions. Helped financially by a community development organization, the club has been

able to hold parties; and they in turn won \$50.00 for the best youth program in the county. They look forward to an appearance on a national television show someday. "If music is the universal language, can't dancing be understood by all people?" asks Mrs. Cunningham. Members of the Carson home demonstration club are proving her point.

News About People

Mr. and Mrs. P. D. Karstan, III, and sons, Paul, Robbie, and Ralph, of Asheville, were guests of Mr. and Mrs. Harvey Price last week end.

Garden Time . . .

By M. E. Gardner

It is always interesting to try something new. Here are some of the new vegetables you should know about for 1959:

Nemagreen Lima Bean — This new variety is resistant to nematodes. In type, it resembles Clark's Bush or Early Thorogreen.

Thaxter — a downy-mildew resistant baby lima variety. Long Imperator II Carrot — a selection from Imperator with long, smooth, well-colored roots.

Deep Gold Sweet Corn — developed primarily for commercial processing, but good for home use and roadside stand sales.

Nappa 61 Cucumber — a mosaic-resistant national pickling type, but is not scab resistant. Nappa 63 is also a national type which was developed for scab resistance.

Edisto Cantaloupe — This variety is best adapted for local use and trucker's market. It has good flesh texture and flavor and is tolerant to both downy and powdery mildew.

Dixie Market Spinach — a savory leafed-type resistant to mosaic and downy mildew. It is reported to be more productive than the standard Bloomsdale types.

Cozella Squash — this variety produces a heavy early yield of attractive fruits. The fruits have better color and are straighter than Long Cocozelle which it resembles; packs well for both shipping and display on grocery shelf.

Hope Diamond Watermelon — a fusarium wilt- and anthracnose-resistant variety of the Black Diamond and Florida Giant type. The fruits average slightly smaller than Black Diamond but have brighter red flesh and are sweeter; reported to be free from white and hollow heart.

And here are some new roses: Kordes Perfecta — an ivory and cerise hybrid tea. Allgold — a golden floribunda. Pink Peace — similar to Peace except for color.

Tapestry — another hybrid tea with variegated petals. Torch Song — a smoky-flame color.

White Queen — a good white which lasts well. Oregon Centennial — a fragrant velvety crimson variety.

New Floribundas — Pink Chiffon. Heat Wave — a Chinese red. Ruby Lips — a deep red long flowering variety.

Green Fire — a brilliant yellow. Bellina — a peach pink. Red Wings — a clear red. Ivory Fashion — soft ivory flowers produced on long stems.

LONGER WEAR — If your bed sheets are wearing thin, don't wait for them to rip. Here's how to make them wear longer. Hold the sheet up to the light to see thin spots. Before the sheet actually begins to break, tear it down the center, sew the outer selvaged edges together and hem the sides. The portions along the selvages are stronger because they receive the least wear. Before sewing the selvage together, rip back the top and bottom two or three stitches from the selvage. Then overlap the selvages and sew them in a flat seam. Renew the top and bottom hems. Hem the side edges to prevent fraying.

Remove chicken from broth. Then remove all but two quarts broth. If you desire skim excess fat from surface. Add two cups whole Kernel corn, one cup cooked tomatoes, two teaspoons salt, one eighth teaspoon pepper, and one teaspoon Worcestershire sauce to the broth. Cook about 15 minutes, stirring occasionally. Add six ounces elbow spaghetti and cook 10 minutes longer.

Place one stewing chicken (cut up) in a large saucepan and cover with water. Add four teaspoons salt and one small chopped onion. Bring to boiling. Reduce heat, cover, simmer until tender.

Remove chicken from broth. Then remove all but two quarts broth. If you desire skim excess fat from surface. Add two cups whole Kernel corn, one cup cooked tomatoes, two teaspoons salt, one eighth teaspoon pepper, and one teaspoon Worcestershire sauce to the broth. Cook about 15 minutes, stirring occasionally. Add six ounces elbow spaghetti and cook 10 minutes longer.
