"FOR FOOLS RUSH IN WHERE ANGELS FEAR TO TREAD"

Health officers are concerned about the extravagant claims some door-to-door salesmen are making about the food supplements they try to sell. They sometimes promise that certain diseases can be cured by their products.

These people, who have no medical training, do not realize the harm they do. That is why all vitamins and other health-aids should only be obtained from a pharmacist. Vitamins, that are potent enough to cure disease, should only be taken according to a physician's specifications, after his diagnosis has indicated their need.
