(Author's Name Below)
Pharmacists sincerely believe, that the practice of medicine requires much knowledge, continuous study and a sincere desire to benefit the patient. Therefore, no one should attempt to advise people who are sick except a physician.

Unfortunately, we have laymen, with no medical training, wearing white jacket to simulate a physician, who by means of television and other advertising, presume to tell you what to take when you are sick. Some of the remedies they promote offer only temporary relief. Be wise. Depend on your physician and the specific medicine he will prescribe for your particular condition.
