NORTH CAROLINA
MEANS BETTER LIVING

Few states are as well equipped to promote and serve
the cause of scientific agriculture as North Carolina.
From such tax-supported institutions as N. C. State
College of Agriculture come many of the new farming
techniques, new machines, new crop varieties and
other developments that are being adopted by our
farmers as the means to a high standard of living on
the farm.

Another cause being promoted in the best interest of
all North Carolina citizens is the "legal control"
system for the sale of beer and ale, which has been
adopted by most of our progressive communities.
