Additional money had been received in the ASC Office to assist other farmers in the program. Any farmer in the county who has a conservation problem on his farm should visit the ASC Office for cost share assistance.

The following practices are available to farmers who have not yet been in.

1. Seeding permanent pasture or hay (lime fertilizer and seeds.
2. Applying lime to pasture or cropland to be sowed this fall. The lime is available in bags and bulk. Bulk lime is delivered to the farm.

3. Application of fertilizer to pasture or hay.
4. Installation of tile drain.

5. Planting forest trees.
6. Seeding winter cover crops, (crimson clover, ryegrass, vetch and small grain).

The County Committee has made a provision whereby all farmers can receive assistance on seeding cover crops. Farmers should check by the office at their convenience.

Development Association will hold the regular monthly meeting Monday, July 25, at Radio Station W.F.S.C. at 8:00 p.m.

The Rev. Robert E. Early, pastor of First Methodist Church, was guest speaker at the July 11 meeting of the Community Association. Following the talk, members enjoyed a hymn sing and refreshments.

Personals
Mr. and Mrs. Woodrow Shook and Mrs. Shook's brother, Hershel Keener, visited Mr. and Mrs. Zeb Holcombe, of Canton, Saturday, July 9. Mr. and Mrs. Shook also took Mrs. Shook's mother, Mrs. J. A. Keener, home to Canton following a few days visit here.

Billy and Carolyn Sanders, son and daughter of Mrs. Dorothy Sanders spent the week of July

vacationing in Florida. Glenda Gall Shuler, of Kingsport, Tenn., visited Mr. and Mrs. Paul Mason and family July 8 through the 10th.

Per capita cotton consumption in the U.S. during 1959 was 24.5 pounds, up about 10 per cent from 1958 and about three per cent above 1957.

NORTH CAROLINA MEANS BETTER LIVING

Probably no single improved farming practice has increased the income and living standards of North Carolina farmers more than the comparatively recent use of hybrid corn. Less than twenty years ago, only about 1% of our corn acreage was planted with hybrid seed corn; this year, about 90%. Higher yields, better quality and the dependable production under adverse conditions that hybrids offer add up to more profit per acre—and account for their rapid acceptance by our farmers.

Similarly, recent years have seen greatly increased acceptance of the "legal control" system governing the sale of beer and ale in North Carolina, in the interest of temperance and moderation.

ASC ITEMS

Incentive payments on shorn wool and unshorn lambs were made last week to Macon farmers in the amount of \$1,000.50 for the 1959 year.

Payments for shorn wool amounted to 43.2 percent of the net return each producer received from the sale of wool during the year. The payment rate on the sale of lambs to compensate for the wool sold with the lamb was 75 cents per hundred weight of live animals sold.

Payments were made only on shorn and unshorn lambs that were marketed in 1959 between April 1, 1959 and March 31, 1960.

The shorn wool payment rate is the percentage required to raise the average price producers received for their wool during the marketing year up to the incentive level of 62 cents.

This method of payment is designed to encourage producers to do a good job of marketing their wool as to increase domestic wool production. Wool growers are now receiving pay for wool sold in 1959 and at the same time are filing applications on wool sold now.

At Conference

The Chairman of the County ASC Committee, Siler Slagle and Office Personnel, Mildred Williamson, Sarah Belle Dean, and Grace Tatham attended the Quarterly ASC Staff Conference for District 10 and 11 in Asheville Tuesday and Wednesday.

Wheat Referendum

A wheat referendum has been scheduled for July 21st. Eligible voters are those farmers who will harvest for grain more than 15 acres of wheat in 1961. Eligible growers in Macon may vote at the ASC Office.
