THE OLD TROTTER house at the side of the First Baptist Church is bowing to progress. The house, which is about 100 years old, is being razed to make way for a parking lot. **To Our Customers...**

We have received questions from a number of customers regarding the cost to the customer to have the 30,000 mile lubrication performed on a 1961 car. Apparently there is some idea being rumored to the effect that these chassis components will require complete disassembly and rebuild at the 30,000 mile interval.

This is not correct. The actual cost including labor and material to perform the 30,000 mile chassis lubrication is less than \$4.00 — in fact, it is exactly \$3.93.
