School News
 The state nutritionist is visiting Cullasaja School. An interesting project is now underway. They are feeding two guinea pigs—one is receiving a balanced diet and the other is getting a diet with a vitamin C deficiency. They are weighed daily and charts are kept showing their weights and condition. The purpose of the experiment is to promote the eating of more balanced diet.

The state lunchroom supervisor held a workshop at Cullasaja School recently for cooks of the lunchrooms in this county. Each lunchroom manager came and brought a sample of the lunch she had served that day. They studied ways to make lunches more palatable and exchanged ideas.

Seventh and eighth grade teachers attended a workshop in music at East Franklin School Tuesday. It is hoped that this study will help the teachers correlate music with the academic subjects.
