College Is Testing Center For National Teacher Exams

CULLOWHEE — Western Carolina College has been designated as a testing center for the 1961 Nationwide Administration of the National Teacher Examination next February, Dr. W. Newton Turner, director of the college graduate division, announced this week.

College seniors preparing to teach and teachers applying for positions in school systems which encourage or require applicants to submit their scores on the National Teacher Examinations along with other credentials are eligible to take the tests. The examinations are prepared and administered annually by Educational Testing Service, Princeton, N. J.

The designation of Western Carolina College as a testing center for these examinations will give prospective teachers in this area an opportunity to compare their performance on the examination with approximately 10,000

candidates throughout the country who will be participating in the nationwide administration on Feb. 11, 1961, Dr. Turner said. At the one-day testing session, a candidate may take the Common Examinations, which include tests in professional information, general culture, English expression, and nonverbal reasoning. In addition, each candidate may take one or two of the 13 optional examinations, which are designed to demonstrate mastery of subject matter in the fields in which he may be assigned to teach.

Applications for the examinations and bulletins of information describing registration procedures and containing representative test questions may be obtained directly from the National Teacher Examinations, Educational Testing Service, 20 Nassau Street, Princeton, N. J. Prospective teachers planning to take the test should secure an application blank and bulletin of information promptly.
