The Best Fertilizer

HE EVER SAW!

Not many folks think much gets past Ralph Page that does not have a reason for going by. So when he tells his experience with anything it is usually worth observing. Last year

THE BLUE

Fertilizer Company made up a special line of goods for the peach association. This is what Ralph Page says of it:

"In my opinion and that of my superintendents it was the most satisfactory mixture we ever used or ever saw. We sold something over a crate and a half to the tree from the first-year bearing trees at Garran Hill, and considerably over two crates from five-year trees at Peachland, and had growth to spare. We were well satisfied, and for the first time at that."
