The Seasonable Word Just Now:

FERTILIZER

Spring is on us. Fertilizer must be going into the ground in a very short time. This has been a bad winter for outdoor work. What is done now must be done without attendant delay.

Get your fertilizer out at the first opportunity, and waste no time in dickering with others.

THE BLUE FERTILIZER

has proved its values. Don't make the mistake of fooling with any other.

You pay your money for the purpose of getting something that will make your crops grow. You know from the records of this community that it is the BLUE FERTILIZER that has been getting the results. This is not the time to take chances on anything that has not proved its worth.

THE BLUE FERTILIZER

The Kind that Makes the Crops that Make the Records.

Manufactured by

THE BLUE FERTILIZER COMPANY

ABERDEEN, NORTH CAROLINA

Local Dealers: McKEITHAN & COMPANY and J. L. ELLIOTT.
